HOUSE, FARM AND GARDEN.

We invite communications from all persons who are interested in matters properly belonging to this department.

What to Teach Our Daughters.

- Teach them self reliance. Teach them to make bread. Teach them to make shirts. Teach them not to wear false hair. Teach them not to powder or paint. Teach them how to wash and iron clothes. Teach them how to make their own clothes. Teach them how to do marketing for the family. Teach them how to cook a good meal of victuals. Teach them to wear calico dresses—and do it like a queen. Teach them to say no and mean it, or yes, and stick to it. Teach them how to darn stockings, and sew on buttons. Teach them to regard the morals, not the money of a beau. Give them a good, substantial common school education. Teach them every day, dry hard, practical common sense. Teach them all the mysteries of the kitchen, the dining room, and of the parlor. Teach them to have nothing to do with dissolute and intemperate young men. Teach them that a good round, rosy romp is worth fifty delicate consumptives.

What not to Kill.

The French Minister of Finance has done a good deed in causing a placard to be posted, which it would be wise for citizens of all countries to have before their eyes. It tells farmers, sportsmen, boys and others, what creatures not to kill, as follows:

- Hedge hog—Lives mostly on mice, small rodents, slugs and grubs—animals hurtful to agriculture. Don't kill the hedge hog. Toad—Farm assistant; he destroys twenty to thirty insects per hour. Don't kill the toad. Mole—Is continually destroying grub, larvae, palmer worms and insects injurious to agriculture. No trace of vegetation is ever found in its stomach. Don't kill the mole. Birds—Each department loses several millions annually through insects. Birds are the only enemies able to contend against them vigorously. They are the great caterpillar killers, and agricultural assistants. Children, don't disturb their nests. Lady-bird—Never destroy for they are the best friends of farmers and horticulturists, and their presence upon aphids ridden plants is beneficial.

Hay for Hogs.

But few men say the Nebraska Farmer, are aware of the fact that hay is very beneficial to hogs, but it is true, nevertheless. Hogs need rough food as well as horses, cattle or the human race. To prepare it you should have a cutting box (or hay cutter), and the greener the hay the better. Cut the hay very short and mix with bran, shorts or middlings, and feed as other food. Hogs soon learn to like it, and if soaked in swill as other slop food, is highly relished by them. In winter, use for the hogs the same hay you feed to your horses, and you will find that while it saves bran, shorts or other food, it puts on flesh as rapidly as anything that can be given them.

Keeping the Head Clean.

Many persons find speedy relief for nervous headache by washing the hair thoroughly in weak soda water. I have known severe cases almost wholly cured in ten minutes by this simple remedy. A friend finds it the greatest relief in cases of "rarecol" the cold symptoms entirely leaving the eyes and nose after one thorough washing for the hair. The hair should be thoroughly dried afterwards and avoid draughts of air for a little while.

The Laundry.

A tablespoonful of black pepper put into the first water in which gray and buff linens are washed will keep them from spotting. There is no objection to it and it softens the water like soda.

Those who buy hard soap at the stores, would find it economical to buy several boxes at a time, take it out of the boxes and pile it up so as to expose it to the air to dry as much as possible. The harder, and drier it is, the further it will go in using it. The same is true of hard soap that is made at home.

Hartshorn will restore colors taken out by acid. It may be dropped upon any garment (especially black) without doing any harm.

Got up in America, where it has enormous sales, the most remarkable work of the class that has ever been published, and combines the attractions of several English Magazines."—London Times. "We have received another number of this delightful magazine, and we find ourselves bound to reiterate with greater earnestness the high commendations we have already pronounced on preceding numbers. We are not given to disparage unduly the literary and artistic publications which emanate from the London press, but we are bound, in simple fairness, to assert that we have not yet met with any publication pretending to a similar scope and purpose which can at all compare with this marvellous shilling's worth."—London Budget. The American Bookseller says: "There are none of our monthlies in which the beautiful and the useful, pleasure and profit, fashion and literature, are so fully presented as in Demorest's." IN REMITTING, small amounts can be sent in Postage Stamps, but sums of one dollar or more, a post office order is undoubtedly the most secure and convenient; or money may be sent in a registered letter, or by a draft made payable to our order. It will completely remove a bone spavin without blistering or causing a sore. It is also good for man as for beast and is used full strength, at all times of the year, with perfect safety. Remedy we claim it will cure a bone spavin and completely remove the bunch without blistering. Statement Made Under Oath. To Whom it May Concern:—In the year 1875 I treated with Kendall's Spavin Cure a bone spavin of several months' growth, nearly half as large as a hen's egg, and completely stopped the lameness and removed the enlargement. I have worked the horse ever since very hard, and he never has been lame, nor could I ever see any difference in the size of the hock joint since I treated him with Kendall's Spavin Cure. R. A.
