

A Queer Case.

Mrs. Eng, of New Albany, Ind. (no relation of Mr. Eng of the late Siamese firm of Chang and Eng), recently lost her husband, and temporarily put his body in the city vault, till she bought a lot. A week afterward everything was ready, and wanting to take another look at the late Mr. Eng, she had the coffin-lid unscrewed. It was the same coffin and grave clothes, but she declares right up and down that it wasn't her husband's face that she saw. She told her daughter, who said she had noticed the same thing, and recognized the face as that of Sam Boroff, a drunkard, who died last summer and was buried in the Pottery Field at Jeffersonville. She hired a colored man who knew her husband to dig up the body again, and he says: "I knew Mr. Eng well. His hair was thick, coarse, and very black, and so were his whiskers. The head in that coffin is not Mr. Eng's head. But I know whose head it is. It is the head of Mr. Sam Boroff. I knew Mr. Boroff as well as I ever knew any man. The hair on the head in the coffin is only a small patch on the back of the head, and it is gray, and the whiskers are also gray." The body was buried again, and it is going to be dug up once more, to prove that some more of the resurrectionists have been at work.

Tremendous Explosion.

Two houses on Fourteenth street, between Eleventh and twelfth avenues, were badly torn up last evening by an explosion of gas accumulated between the floors. The house, a double one, and just erected, belongs to Mr. John B. Wesley. Mr. Miles Jones had but a few days previous moved into the eastern dwelling. It was yesterday being arranged and had just received a fresh coat of varnish. During the afternoon the gas was turned on and it soon became evident the pipes had not been tried thoroughly. Mr. Wiley, the plumber, had just been called in and he and Mr. Jones were looking for the defective pipe. A match was struck and the moment it was applied to a hole in the floor there was a terrific explosion and the whole room seemed to be enveloped in flames. The gas had escaped between the floors and mixing with the air formed an explosive.

Persons a square off said the noise sounded like the explosion of a shell and it is indeed miraculous that no one was badly injured.—Altoona Tribune.

Wholesale Grave Robbery.

RICHMOND, Va., January 4.—It transpired last night that ghouls have been at work exhuming dead bodies by the wholesale from Oakwood Cemetery, situated in the eastern suburbs of this city. It is known now that over forty bodies have been stolen since the cold set in, and it is supposed that they have been shipped to medical institutions in different portions of the country. Nearly all the exhumed corpses are supposed to be those of colored people, though several of them may have been white. The attention of the Council Committee on Cemeteries was called to this matter some time ago by the keeper of Oakwood cemetery, but no action was taken to prevent the work of the ghouls. The affair creates great excitement among the people living in the vicinity of the cemetery, and when the matter becomes generally known it will create the greatest indignation against the Council.

A Surprised Darkey.

A Jersey negro was surprised the other day. He was going along a street of Patterson by a photograph gallery. An icicle from the roof struck a wooden frame standing in the third-story window and containing a negative, and knocked the frame down. It struck the negro's head, and the frame fell around his neck. He wasn't hurt, but thought somebody was trying to rob him from behind, and turned around and began to fight the man walking nearest behind him. It was some time before he could be made to understand the situation.

On Christmas day Robert Mitchell, one of the foremost business men and capitalists of Cincinnati, assembled his family, consisting of sons, daughters and grandchildren, twenty-six in all, for a Christmas dinner. The first course was twenty-six envelopes, passed around on a tray, one envelope for each member of the company. Opening these the astonished relatives found gifts of houses and lots and money ranging from \$50,000 down, and aggregating fully half a million dollars, the bulk of Mr. Mitchell's estate. His two sons and two daughters received \$50,000 each; the daughters-in-law gifts of valuable real estate, and the grandchildren sums of money. It is the most extensive ante-mortem distribution of property that has taken place in Cincinnati. Mr. Mitchell's desire was to keep the matter quiet, but the peculiar manner of distribution soon led to rumors which he found necessary to correct by giving the complete story.

Two persons perished by the burning of Turner hall in New York on Monday.

Over and above, especially if you have a FARM or Village LOT, requiring

\$2,000,000,000

(Two Thousand Million Dollars) are expended in FENCING. To fence our new Western fields will cost as much more. Every FARM and Village LOT owner, EAST, WEST, and SOUTH, is interested. To fence a 100-acre Farm costs \$200 to \$300, and for a 50000 Village Lot \$35 to \$100. Wood fences soon decay. But a New Era is at hand. By new inventions, STEEL and IRON are to supplant WOOD, furnishing better, Cheaper, and Lasting Fences.

The 39th Volume of the American Agriculturist (for 1880) now beginning, will give very much information about new Fencing, with many Engravings. The Number for Dec. 1st has 21 engravings of Barbed Fencing, and much interesting matter. Sent post-paid for 15 cents. To every one interested in FENCING for a FARM, or Village LOT, the 39th Volume of the American Agriculturist will be worth five times, if not a hundred times, its small cost. BUT, besides the above important feature, the American Agriculturist will give a very great amount of Useful, Practical, Reliable Information—for the Farm, the Garden, and Household (Children included)—and over 800 Original Engravings, illustrating Labor-saving, Labor-helping contrivances, Animals, Plants, Fruits and Flowers, Farm Buildings, and many other Pictures instructive and pleasing to Old and Young—it is useful to ALL in City, Village, and Country.

Its constant exposure of HUMBUGS, which have saved to its readers many Millions of Dollars, will be continued vigorously. For these alone the American Agriculturist should be in every family, no matter how many other journals are taken; also for its Special Information and its variety of pleasing and useful Engravings in which it far exceeds all other similar Journals.

TERMS (postage prepaid)—\$1.50 a year. Four copies, \$5. Single numbers, 15 cents. (One specimen only, for two 3-cent stamps.)

Over 1200 Valuable Premium Articles and Books are offered to those getting up clubs. Premium List sent on receipt of 3 cents postage. ORANGE JUDD COMPANY, P. Fishers, New York.

CATARRH

Eight million families in the United States, and each family uses a common Wash-Boiler, and will certainly adopt the improvement. It has a double reservoir; a double system of trap valves; double circulating columns, through which the water is forced, and is discharged on top of, and through the clothing, which, by the great weight of water thus tilted, is returned by the hydraulic pressure of traction of gravitation to the double reservoirs before mentioned, to be immediately trapped back into the circulating columns. Thus it will be seen the motion of the water is continuous, simulating perpetual motion. The water, boiling hot, is forced through the clothing by the repellant power of heat, at the rate of 7 gallons per minute. It is actual-ly to see how speedily and perfectly it will wash clothing. Thirty minutes is ample time to wash twenty-four shirts.

AT LAST! CATARRH.

C. B. LITTLEFIELD & Co.—DEAR SIR:—I have been troubled with Catarrh in all its forms for the last 20 years, and have used all remedies recommended to cure, but received little or no benefit, until I tried the Constitutional Catarrh Remedy. I have only used one bottle and a half, and I am so much better that I can say it has cured me. My daughter-in-law has also been afflicted for the last four years. She is now using the remedy with the same result. I can truly say it is a wonderful medicine, as I know from experience that it will cure any case of Catarrh. I formerly lived at Napanee, Ont. Hoping that you will introduce the medicine through the Dominion thoroughly, so that my fellow sufferers may have an opportunity of getting cured of this disease. Yours respectfully, NELSON SHOLEY.

Wakametka, the Medicine Man

Nothing has been added to the medicine and nothing has been taken away. It is without doubt the Best Purifier of the Blood and Restorer of the System ever known to man. This Syrup possesses varied properties. It acts upon the Liver. It acts upon the Kidneys. It regulates the Bowels. It purifies the Blood. It quiets the Nervous System. It promotes Digestion. It nourishes, strengthens and invigorates. It carries off the old blood and makes new. It opens the pores of the skin, and induces Healthy Perspiration. It neutralises the hereditary taint, or poison in the blood, which generates Scrofula, Erysipelas, and all manner of skin diseases and internal humors. There are no equal to it in its manufacture, and it can be taken by the most delicate babe, by the aged and feeble, care only being required in attention to directions.

DR. CLARK'S INDIAN BLOOD SYRUP

Laboratory, 77 W. 34 St., New York City, LATH OF JERSEY CITY.

The Best Remedy Known to Man!

Dr. Clark Johnson having associated himself with Mr. Edwin Eastman, an escaped captive, long a slave to Wakametka, the medicine man of the Comanches, is now prepared to lend his aid in the introduction of the wonderful remedy of that tribe. The experience of Mr. Eastman being similar to that of Mrs. Chas. Jones and son, of Washington Co., Iowa, an account of whose sufferings were thrillingly narrated in the New York Herald of Dec. 15th, 1876, the facts of which are so widely known, and so nearly parallel, that but little mention of Mr. Eastman's experiences will be given here. They are, however, published in a neat volume of 300 pages, entitled, "Seven and Nine Years Among the Comanches and Apaches," of which mention will be made hereafter. Suffice it to say, that for several years, Mr. Eastman, while a captive, was compelled to gather the roots, gums, barks, herbs, and berries of which Wakametka's medicine was made, and is still prepared to provide the same materials for the successful introduction of the medicine to the world; and assures the public that the remedy is the same now as when Wakametka compelled him to make it.
