### The Bloomfield Cimes.

HOUSE, FARM AND GARDEN.

FOR THE TIMES. Farmers, to Our Own Interest.

A farmer of twenty-five years experience,-on Halderman's Island, Dauphin co., Pa., - who has paid especial attention to stock raising, lately visited the farm of Gen. Langhorne Wister of Allen's Cove, Perry county, and was really surprised when shown the stock owned by that gentleman. He has sixty-one head of cattle, of the best variety; two cows lately imported, which cost over four hundred dollars; an imported bull, which will at the present time weigh about twenty-five hundred pounds, besides a large number of other cattle far surpassing any in the state, as the General has been very particular in selecting his stock from the best in Europe. I have also visited the farms of Col. James Young, and Wm. Colder, of Dauphin county, but their stock is not up to the standard as compared to Gen. Wister's.

They make one hundred and twentyfive pounds of butter every week which is shipped to Philadelphia, at fifty cents per pound, throughout the year. There are four girls constantly employed in milking, taking care of the milk and manufacturing butter.

The farm is worked by four men, and six horses; the men are employed by the year, and are under the instruction of the General, who is not lacking in knowledge, of how to make the most profitable arrangements and yet keep the farm in excellent condition.

I think if farmers would visit and see the General's stock and farm, and purchase their stock of him they would do well, and in a short time so improve the stock in the country that it would be a great benefit to all. A FARMER.

#### Ventilating Sleeping Apartments.

As soon as the occupants have left the room, the bedclothes should be entirely removed from the bed, and hung upon a clothes-horse or the backs of chairs, the bed shaken up, and all curtains, if used, drawn closely to the bedposts. The windows should then be opened, both at top and bottom. They should remain open in summer, or in very fine weather, until a little before sun set; in very sultry weather some outside air may be admitted all night. In winter and early spring, windows should remain open until a little after midday, when the warmth of the air is greatest, and then closed. In this way the air of the best portion of the day is shut in and reserved for respiration during the night, when the external air is at the worst. A fire should be lighted for a few hours during the afternoon, in very cold and damp weather, so as to dry the air which has been shut in. This is the only way in which the exhalations from the bedclothing can be got rid of in such a state of the atmosphere, and the sweetness and purity of the clothing and other materials, which are kept in drawers and wardrobes secured. Here is what Professor Kedzie says:

"But," you will say, "how can you tell whether the air of our bed-rooms is pure or not? We are not chemists to analyze the air: Why man! woman! you have the best apparatus in the world, and one given you for that very purpose. Nature has given every one of you a nose, and purposely placed it in advance of all the rest of the body to give warning of danger. It is the advance-guard of safety! If you will use this "one talent" which nature has given you, and not keep it " wrapped in a napkin," you may go safely. Use your blessed nose for this purpose to morrow morning to test the air of your bed-room. When you get up, leave your bed-room just as it was; go out into the pure morning air and breathe that till your nose is wide awake, and then go back and take a few snuffs of your bed-room air; if It smells fresh and sweet, like out-door alr, you have good ventilation, and have breathed the breath of life all the night. But if it is close, musty, and sickening-well, I'll leave you to finish that sentence when you and your bedmate compare notes at you and your bedmate compare notes at breakfast, and to draw your own conclusions. Try the experiment, by all means, and see how much your nose can teil you. Perhaps it might give you some idea of the cause of your waking with a headache and languor, feeling that life is a burden. It is a burden when you carry such a crushing and needless load."

The largest orchard in the world is probably that of Robert McKinstry, of Hudson, N. Y., which contains more than 24,000 apple trees, 1,700 pear trees, 4,000 cherries, 500 peaches, 200 plums, 200 crabs, 1,500 vines, 6,000 currants, and 500 chestnuts. The apple crop of last year was 30,000 barrels.

Clean a brass kettle immediately before using it for cooking, with salt and vinegar.

# BENSONS

A Word to those who use POROUS PLASTERS. It is a universally acknowledged fact that BENSON'S CAPCINE POROUS PLASTERS ARE SUPERIOR TO ALL. OTHERS The great demand for them has caused a number of unscrupulous parties to make and sell worthless imitations under similar sounding names. As the market is flooded with inferior plasters selling at any price it is important for the consumer to know which is the best. It is well known that some of the cheap plasters have been examined and found to contain injurious ingredients which make them dangerous to use, causing paralysis and other diseases.

CAUTION—See that the word CAPCINK on each paster is spelled correctly.

SEABURY & JOHNSON, Pharmaceutical Chemists, New York, Price 26 Cts. 664w

# Ruptur

DR. J. A. SHERMAN is the Only Original Dr. Sherman known to the public for the past 35 years or more through his successful method of treating Rupture without the aunovance and injury trusses inflot. His system of cure is by local external application. No man is safe who has a rapture, no matter how insignificant he may consider it, for every man who has died it, once cattered himself that it was but a triling allment; and every man who now sinfers from tand the injury of trusses, to such an extent that life has no enjoyments, once regarded it as unworthy special attention. It is not a stand still affliction; it is progressive, even unto death. References given to gentlemen in the city, who have nor cured. During treatment no hindrance from labor. Patients from abroad can receive treatment and leave for home the same day.

gives the most reliable proofs from distinguished professional govilemen, elergymen and merchants of his successful practice and popularity therefrom throughout this country and the West Indies

## DR.J.A.SHERMA 251 Broadway, Corner Murray St., New York.

CAUTION,—The reputation of Dr. J. A. SHERMAN, attained from 40 years successful practice has started around the country, PRETENDERS who assume to be the original Dr. sherman famous for the cure of Rupture. Two of these parties an old and a young man recently turned up in Hoston; they duped several by their Fraudulent Advortisements when suit was brought, but the fellows ran away leaving sorrowful victims, room rent, board bills and newspapers unpaid. Since then they have been discovered at 21 Broadway, New York, where they recently, by base deceptions defrauded an aged Clergyman.
