or to vote in the church." Columbus W. Taylor, a well-known citizen of Millerstown, died suddenly at that place, on Friday morning a week. He had an attack of rheumatism, but had recovered and was able to do light work. He took a severe chill on Wednes-day morning and died the following Friday morning. Mr. David Postiewait, also a resident of Millerstown, died suddenly. He pre-pared Mr. Taylor's remains for burial, and proceeded to dig the grave, when he took ill, and was compelled to relinquish the work, and died the following Tues-day.

day. At Marysville last week a meeting was held by soldiers of the late war, residing there and in that vicinity, to express their approval of the bill known as the Weaver bill, by which that representa-tion from Iowa proposes to equalize the pay of soldiers. We don't propose to enter into any extravagance in antici-pation of our share of the funds to be derived from the passage of that meas-ure, for we think there is more proba-bility of the millenium beginning during the next year than there is of the enactment of such a law.

Another Trial.-Last week the Supreme Court rendered an opinion in the case of Mrs. Catharine Zell, of Carlisle, under sentence of death for murder. The decision reverses the judgment of the lower

court and grants a new trial. The prin-

cipal reason given for this action is that

principal witness, Mrs. Reed, was ad-

mitted by the lower court when it should

One corner of the large bank barn was mov-ed about four inched on the wall. A number of rafters and other pieces of framework were broken. A shed at-tached to the barn was entirely torn away. The roof of the dwelling house was raised off; the roof of the bake house was torn off and carried, with the chim-ney, about twenty rods. Several large trees were uprooted and a stack of fod-der scattered over about six acres of der scattered over about six acres of ground. Six pannels of post fence were blown down and the rails scattered in every direction. The storm lost his fury before it reached the turnpike. Loss between \$50 and \$100.

. FOR THE TIMES. Another Bailroad Man.

MR. EDITOR :- I am glad to see that a few men are yet thinking about a railroad. A cor-respondent writing to the "Democrat," last week points out some of the advantages and week points ont some of the advantages and does not put the matter a bit too strong when he speaks of the quantities of iron ore waiting for a railroad before it can be shipped. I know he is right on that point, and I have no doubt but what if the farmers of the upper end would join a home company that is interested in getting a road built and not in making money for themselves, a road would be built that would pay. In your paper a few weeks ago I noticed a correspondent made a sugges-tion as to a route, that I have often thought of, Iton as to a route, that I have often thought of, and I cannot see why Newport is not as good a point as any other for the connection. In fact I have always thought it the only place for a road from Bloomfield or the upper end to con-nect. That town has the enterprise to make a large place, and with a branch road coming in to it, that town would soon grow to be a very important point on the F. R. R. Bloomfield would also increase in population and enter-prise, while the whole upper end would feel the impetus. By all means let the railroad tople be kept before the people till they awake to their own interests, and push through the first section of a railroad from Newport up the Valley. I say first section, for if once made to Bloomfield it will be only a few years before it would be further extended, but in the mean-time we would save the worst part of the road we now have to use to reach market and turn some of what now is maxailable wealth, to some of what now is unavailable wealth, to live capital that would still farther corich R. county. 137 The leading article is the North Amer-icon Review for March is by ex-Judge Jere. S. Black and is entitled "The Third Term," be-ing a reply to ex-Senator Howe's paper on that subject in the Review for February. Mr. Black holds that to elect General Grant to a third term of office in the presidential chair would be a violation of a custom that is stronger than any laws or constitution whatever that it would in effect be the end of our republican in-stitutions, and the enstallment of "empire." Hor. E. W. Storghton follows Mr. Black, taking precisely the contrary view, that not only is a third term not a thing to be depreca-led, but that it is eminently desirable, especial-ly if, as in General Grant's case, an interval of body is a single term how a term in the depreca-led, but that it is eminently desirable, especial-ly if, as in General Grant's case, an interval of time has elapsed botween the second term and the third. A timely article by David A. Wells aims to prove that a discriminating income tax is essentially Communism, and that this is specially true of such an income tax as was levied in the United States by Acts of Congress in 1865 and succeeding years. The fourth article is by Rev. Dr. Bellows, and treats of Civil Service Reform. The author recounts what has been done in Britain to reform the civil service of British statesmen may be turned to advantage by American lawmakers. Prof. Simon Newcomb, in an article on "Our Political Dangers," calls attention to the need of some non-political tribunal for the determi-nation of contested elections. He looks on the presidential atruggle of three years ago, and nation of contested elections. He looks on the presidential struggle of three years ago, and the recent excitement in Maine, as symptom-atic of a diseased political condition which calls for remedies very different from those which have hitherto been employed. John Lancaster Splading, Bishop of Peoria, makes a spirited reply to Froude's recent article on "Romanism and the Irish Race in America." The notices of new books are by Mr. E. L. Didler.

Newspaper Dead Beats .- The Columbia "Courant" grows somewhat waspish over what it is pleased to call "newspaper dead beats," whom jit thus describes:

"What do you think of a man who will take a newspaper for four or five years, without paying for it, and then requests the postmaster to notify you that 'he does not want it any longer.' We have some half dozen of this class we are sorry to say. The man who does so is more dishonest than the midnight so is more dishonest than the midnight burglar or the foot pad who meets the traveler on the highway and demands him to 'stand and deliver;' you can defend yourself against the rascality of the latter, but while you deal with the former as if he were an honest man, trusting him to the amount of \$5 or \$10, way are reddening a particulated by the second you are suddenly apprised that he is a thief."

Strawberries in Baltimore.-Says the

Baltimore Sun of Saturday a week :-The wholesale produce market of Baltimore has been fairly active this week in the usual winter vegetables and other articles. On Wednesday, 96 quarts of Charleston strawberries, grown in the open air were sold to marketmen at 40 cents a quart. They were well ripened and fairly good. About 30 boxes of Florida green peas sold at \$2 a bushel box.-New radishes have been received from Charleston and Norfolk and sold at \$2.50 per 100 bunches. Produce dealers are anxious about the remarkably forward condition of vegetation in the South, which is fully a month a head of the proper season. They hope the southern section and the Norfolk truckers will get enough cold weather yet to keep back their crops, and save them from a freezing out that might come later on in the spring. A Charleston grower has written to his commission house here that from the outlook at the time he wrote strawberries would be plentiful soon. Fish are becoming more abundant, although the cold shap interfered with Chesapeake fishermen.

Employment For Ladies.

The Queen City Suspender Company of Cincinnati, are now manufacturing and introducing their new Stocking Support-ers for Ladies and Children and their unequalled Skirt Suspenders for Ladies. None should be without them; our leading physicians recommend them, and are loud in their praise. This man-facturing establishment is managed by ladies who have made the wants of ladies and children a study, and they ladies and children a study, and they ask us to refer them to some reliable and energetic lady to introduce them in this county, and we certainly think that an earnest solicitation in every household would meet with a ready response, and that a determined woman could make a handsome salary and have the exclusive agency for this county. We advise some hady who is in need of employ-ment to send a postal card to the Com-pany, with her name and address, and mention this paper. Address, Queen City Buspender Company, Nos. 147 & 149 West Fourth Street, Cincinnati, Ohio. 93t. Ohio.
