Correspondents would greatly oblige us by sending their communications as early in the week as possible, and also by making them short and to the point. We frequently receive interesting communications that we are compelled to throw aside for want of room. We don't need matter to fill up. We want to publish nothing but interesting reading, and our only trouble is to boil down, so as to be able to note everything of interest. If our business increases in the future as it has in past, we may in the course of a year two, be compelled to enlarge our paper.

A Great Inheritance.—A dispatch from Indiana says:—Kokomo county, Ind., is excited over a fabulous estate in Holland which is believed to belong in part to the citizens of that county. The story is that the Kern family, of Holland, loan-

ed a sum of money to the Government payable in ninety-nine years which is now due, making a total of \$200,000,000. The Kern family came to Pennsylvania in the year between 1727 and 1776, and their heirs are scattered over that State and the West, one branch of which, residing in Kokomo, made the discovery. There are quite a number of those descendants in Perry county, Pa., and they will be interested in the above notice.

Court Proceedings.—One jury was held over from last week to try the case of Daniel Shumaker et al vs. Jacob Shumaker, Jr. This was an action in ejectment brought by some of the heirs to recover the real estate of Jacob Shumaker, Sr. dec'd. A short time before his death Mr. S. had deeded his farm to his son Jacob. According to this deed Jacob was to pay for the farm the sum of \$7,000, and after paying off the debts of his father, was to pay the balance in equal amounts to the other children. They allege this was too low a price and that the old man was mentally incapable of making a deed or a will. A large number of witnesses were called and much interest was manifested in the case. The jury found a verdict for the deft. Barnett for plff. Selbert and Markel for deft.

In addition to the above case miscellaneous business was transacted as follows: E. D. Book was appointed guardian of Robert M. Swartz, Alice S. Swartz and Francis M. Swartz, minor children of John Swartz, late of Jackson township. Sponaler att'y.

FOR THE TIMES. Our Railroad.

MR. EDITOR:—In the TIMES of last week I notice that some person in this township wants a railroad to ship iron ore. He states, "he can give you lots of freight if you give us the road." There is no doubt we have an abundance of iron ore in this township. But you want to know how much we want the road in dollars, stating that you want it \$50 worth. I will state that I want it \$50 worth. I have 50 acres of land and will give one dollar for each acre. Now let us hear from your correspondent that wants to ship his ore. Persons that have ore lands might well afford to give one thousand dollars for a railroad, because the ore without a road is of very little account. JOHN RICE. Elliottsburg, March 30, 1880.

FOR THE TIMES. Dawning of the Millennium in Potter County.

MR. EDITOR:—In the TIMES of March 30th I find the following good news: "Potter county is a temperance county and the result is shown in the report of the District Attorney at the late session of court. He reported that he had no bills to report to the Grand Jury; the Sheriff that he had no prisoners in jail, and the Directors of the Poor that no one was maintained at the expense of the county."

Now if the report from Potter county is correct, and if temperance is productive of so much good to the community, the report should be published in every newspaper throughout the country and kept before the people until every county becomes temperate. Of course there are other evils and errors in society that must be removed before the Millennium can be fully introduced, but the evils of intemperance are now before the public, and the friends of temperance can point out the blessings to be obtained from total abstinence by the result in Potter county. JOHN RICE. Elliottsburg, Pa.

Cumberland County.—We copy the following from the Cumberland papers of last week:

The Beltzhoover ore bank is now in operation and employs 45 men. An additional washer is being put up which will increase the capacity considerable.

The Strickler bank has 17 men at work and will soon begin to wash ore. The ore mined there will be shipped to the Porter Furnace at Harrisburg.

The Carlisle Herald says: An enraged bull belonging to butcher Stock, which escaped from the stable last Wednesday evening, created no little excitement on the principal streets. The bull after attacking both the evening trains and going where he pleased for about an hour, was finally captured.

On Sunday night, March 28, about nine o'clock as Mrs. Robert Mateer, residing on East Main street, near Penn, was passing from one room to another, and having to descend several steps, she tripped and fell upon her right arm, breaking it at the wrist. Dr. C. A. Howland was called in, who reduced the fracture. -Shippensburg News.

This community was shocked on Friday morning, when it was announced that Mr. J. Wilson Henderson, a well and favorably known citizen had died suddenly the previous night. Mr. H., was in apparent good health the evening previous, and such an event was quite unexpected. He was during life, an amiable gentleman, and highly esteemed by his acquaintances. His age was we presume, about 65 years. He leaves a widow, a daughter of the late General Samuel Henderson, and his children.

Coroner Smith was notified on Saturday last, that an infant had been secretly buried in the colored grave yard and that suspicions were strong that the child had been foully dealt with. The Coroner summoned a jury, had the body which was only buried a few inches in the ground, raised, and after a post examination by Dr. Bixler, the jury rendered a verdict that it was a premature birth. The Coroner examined several witnesses, to ascertain who had placed the remains there, but failed to elicit any facts.

A man working at the Beltzhoover ore bank, was crushed by a car load of ore on Wednesday evening. He was walking in front of the car which was descending the plane and was caught between it and the cross-bar. No bones were broken although his limbs are paralyzed. Dr. Gray is attending him, who thinks he will be able to be about in a few days. Adam Tack was also injured in the forehead at the Ege bank on Friday, by being struck with an iron pin on the end of a car. The coupling broke leaving the car run down the plane and causing the accident.

One of the largest and boldest incendiary fires occurred at Shippensburg on Thursday night last between the hours of twelve and one o'clock. Four stables belonging to Messrs. John Smith, James Reeder and James Henderson, situated on East Main street, together with four horses, five wagons, one cow and one buggy, including a large lot of grain, etc., were entirely destroyed.

The firemen were slow in arriving at the spot owing to the delay in giving the alarm. Mr. Smith's loss is about \$1000, with an insurance of \$300 on the Allen and East Pennsboro' fire insurance company. Mr. Reeder's loss is \$600, with an insurance on the stable of \$50. Mr. Anderson's loss is light, he having lost only a portion of his building. The whole loss is about \$2,000.

On Wednesday morning Mr. Louis Weidman was the victim of a painful accident at Gardner & Co's works at Carlisle. Mr. Weidman fills the post of engineer and turner at these works a position he has held for many years. On the morning named he was at work at lathe in the woodworking department, and his chisel caught in the wood, in some unaccountable way, throwing the stick out of the machine. Rebounding, the timber struck Mr. W. above the eye, knocking him senseless. He was taken to his house, on East Pomfret

street, where he remained insensible for some time. Surgical aid was summoned and a careful examination showed that no serious injury had resulted, though of such a character as to place the injured man on the retired list for a time.

Juniata County.—We copy the following from the Juniata county papers of last week.

A thief forced a shutter and window open in Hinkle's store, last Monday night, entered the store, stole a pair or two of good shoes and other things, and when he took his departure he left an old shoe, an old boot, and a pair of old stockings. The shoe and boot each were protected by a gum shoe.

Jacob Smith and his son, H. L. Smith have opened a twenty inch vein of iron ore on their lands not far from McAllisterville; they haul the ore to Thompsonston station and there ship it by railroad.

A Mexico boy shot a crane last week, that measured six feet from tip of one wing to the tip of the other wing. The boy used a rifle and shot the bird while it was flying. It measured six feet from the point of bill to the point of the tail.

Our most respected friend John D. Milliken, of Spruce Hill township, met with a painful accident recently. He was leading two horses by the halter straps, one in each hand, when they became unmanageable, and in his attempt to hold them, had his arm dislocated at the shoulder blade.

On Tuesday, Louis Atkinson, a little three-year-old child of our old friend Zachariah Wetzler, of Walker township was out playing when a colt ran against it, knocking it down and tramping on it, which resulted in the death of the child. It is a sad occurrence and the parents have our sympathies. -Tribune.
