

## THE TIMES.

New Bloomfield, June 22, 1880.

## NOTICE TO ADVERTISERS.

No Out or Stereotype will be inserted in this paper unless first face and on metal base.

Twenty per cent. in excess of regular rates, will be charged for advertisements set in Double Column.

Mr. J. H. BATES, Newspaper Advertising Agent, 41 Park Row, (Times Building), New York, is authorized to contract for advertisements for this paper at our best rates.

## NOTICE TO SUBSCRIBERS.

Look at the figures on the label of your paper. These figures tell you the date to which your subscription is paid. Within 3 weeks after money is sent, see if the date is changed. No other receipt is necessary.

THIS WEEK the public will look with interest towards Cincinnati where the Democratic National Convention meets to-day. Arrangements will be made to give the public prompt information of the doings by telegraph.

## The Merritt Outrage Discussed.

WASHINGTON, D. C., June 15.—Secretary Evans laid before the Cabinet to-day the affidavits of the Captain and crew of the schooner Ethel A. Merritt, of Philadelphia, which was recently fired upon by a Spanish war vessel. The statement corroborated the account heretofore published in the general press dispatches. It was decided that an explanation should be demanded from the Spanish government, and Secretary Evans will proceed to obtain the same immediately.

## Attempt to Swindle the Mint.

PHILADELPHIA, June 16.—A man hailing from Tidoute, Pa., entered the United States mint in this city yesterday and expressed his desire to deposit for coinage gold bars, expecting to receive a negotiable certificate in return. If composed of pure metal the bars would be worth \$20,000. The man's manner excited suspicion, and an assay was made at once, resulting in the discovery that the bars were composed entirely of bronze, although the party had exhibited pure goldfilings, which he said had been bored from the bars of metal. When apprised of the discovery the man took the matter very coolly, saying that he had been deceived by the parties from whom he had purchased the metal, and after asking where he could dispose of the bronze he left the building.

## Warning to Supervisors.

At the last term in Butler county verdicts were recovered against Allegheny township, said county, which with costs will cause the taxpayers to pay about \$3,000, by reason of an accident which the jury found was caused by one of the public roads being obstructed by a sapling, which fell across it and was allowed to remain on it some weeks, and which compelled travelers to turn off the public road and go a short distance through the woods. The proof also showed that it cost one dollar and fifty cents to remove the obstruction after the accident happened. Scott township, Allegheny county has again had a verdict rendered against it of seven thousand dollars in the case of a Mr. Montgomery, where a new trial has been granted the township; the jury finding the accident happened for want of suitable fence or guard at a steep embankment. The supreme court says it is not a good defence for the district to show that the accident might have been avoided by careful driving. Horses are timid animals, and the road must be in a condition to be safely traveled with skittish and spirited animals. Penny wise and pound foolish people may object to the expenditures necessary to make the roads safe for ordinary travel, but even their eyes ought to be opened by a few such cases as above referred to.

## GREAT FLOODS.

Rain storms of great violence and unusual duration have raised the water to a higher point than was ever before known in the West.

Grand Rapids, Wisconsin, is mainly under water, and one of its business men, Ferguson, was drowned. Two-thirds of the city of Ocean, of Wisconsin, is inundated, the loss in that city being placed at \$250,000.

The Mississippi is very high and considerable damage is reported along its bank.

At La Crosse thirty thousand tons of ice has been ruined, and at Dubuque all the lowlands are covered. Farmers and others in Indiana and Illinois complain of the excessive rain fall. Bridges have been carried away, and many fields of corn and wheat destroyed.

The telegraph company reports that the heavy rains in the northwest have prostrated the wires and flooded the country. All the St. Paul wires are down. There was snow in Minnesota last week. The weather is cold and raw.

MILWAUKEE, June 15.—Much damage has been done on the Upper Embarras and Pigeon rivers by floods. The dam and mill near Raymondville, and the dams at Raymondville and Em-

barrass, and the dam at Clintonville gave way and the water carried everything before it, including several buildings. Great damage was done to crops along Embarrass valley, and the entire grain crop is probably destroyed, and distress must result to the new settlers. All the bridges on Bear creek have been carried away. The son of Frank Lyon was drowned while crossing the creek. Many families that sought shelter on the roofs of houses are being carried with the water. Many of the inhabitants are disheartened, and leaving for other sections.

## Disastrous Failure of a Bank.

BRATTLEBORO, Vt., June 16.—Great excitement prevails over the report of the insolvency of the First National Bank of Brattleboro, representing \$300,000 capital stock, with \$80,000 surplus. A meeting of the directors was held yesterday afternoon and a thorough investigation will follow. A suit for \$200,000 damages has been brought in the name of the bank against the president, Silas M. Waite, who left town on Thursday last, and of whose whereabouts the directors profess to have no knowledge. It is feared the surplus of the bank will be entirely wiped out, and possibly the deficiency may reach upward of \$100,000. The directors are reticent as to the cause of the loss, but poor investments are undoubtedly responsible in a measure.

It is believed that to day's investigation of the First National Bank's affairs will reveal astonishing forgeries, and that even as large a sum as \$200,000 in forged papers will be brought to light, bearing the names of the most prominent men in this and other States. A receiver took charge of the bank to day.

## How a Valuable Horse was Lost.

The Clearfield Republican says that a beautiful dark-bay horse, belonging to Mr. Wesley Bloom, of Pike twp., Clearfield county, and valued at \$250, while attached to a cultivator in Mr. Bloom's corn field, on Tuesday, became frightened and began kicking, at each blow striking the solid iron of the implement and continued doing so until his hind legs were completely mashed. The owner immediately procured a gun and shot the horse to end his misery. On the Saturday previous Prof. Hamilton, of the New York circus, offered Mr. Bloom, at Curwensville, \$225 for his horse but the offer was not accepted.

## Was it a Presentiment.

Rev. E. B. Lockwood, the pastor of the Sixty-eighth Street Methodist Episcopal Church, of New York, was rescued from the water in an exhausted condition, and died soon after. During the evening he sat in his state room on the Narragansett, reading Paine's treatise on "The age of Reason." On the fly-leaf he wrote: "If I go down on this boat to-night I should be ashamed to have this book found with me, were it not that I read it to refute its doctrines."

## The Storm in Clinton County.

LOCK HAVEN, June 14.—A terrible wind and rain storm passed over this city and county yesterday afternoon. Houses and barns were unroofed, bridges were damaged, and fruit orchards, gardens, shade trees, fences and sheds were destroyed. The City flouring mill, of this place, was blown out of line. No lives were lost.

## Miscellaneous News Items.

NEW ORLEANS, June 14.—A dispatch from Jackson Miss., says: "It is supposed that Gov. Brown fell from his horse in a fit of apoplexy. The remains were brought to Jackson and laid in state in the capitol until this morning, when the funeral took place, during which all business was suspended."

A party of tramps in the neighborhood of Peru, Ind., attempted to outrage a young girl, and when disturbed by the police, resisted and threatened to shoot the officers. Marshal Pierce shot one fellow dead, and after a running fight four others were captured.

General orders from the headquarters of the G. A. R., of New Jersey, fixes the period from August 20 to September 29, inclusive, as that when the encampment at the Bonaparte Park in Borden-town shall take place. On the first mentioned day, there will be a grand sham battle between land and naval forces.

BUFFALO, June 16.—While a German named Freund, and Philip Bender, a boy, were at work in a sand pit ten feet deep, the bank suddenly gave way, and they were buried beneath several tons of earth. Both were dead when taken out. Bender's neck was broken. The boy was a son of the contractor, and no precautions had been taken to prevent a "cave."

NORTH ADAMS, June 16.—A terrible scourge resembling dysentery is prevailing which so far has baffled the skill of physicians. Over one thousand persons, old and young, have been stricken down. The

physicians are busy night and day. Many cases it is feared will be fatal. There is little doubt that the epidemic is occasioned by the impurity of the water in the reservoir.

SCRANTON, Pa., June 14.—A prisoner named McGill, who says his home is at Pittsburgh, escaped through the wall of the Scranton city prison this morning. He was locked up last night and dug his way through a double row of bricks lined with planks; he then dragged himself through a hole twelve by fourteen inches to the roof of a three-story house, from which he entered the bedroom of Humphrey Brady, close by, and ran down stairs. Brady and family were having breakfast when he descended. McGill made a dash for the door but was intercepted by Brady, who seized him by the neck and a sharp struggle ensued. McGill was finally captured and placed in a stone cell.

## Big Figures.

Even those familiar with the enormous sales of the "Vibrator" Separators manufactured by Nichols, Shepard & Co., will be surprised to know that if all the Separators manufactured by them were set up ready for work and placed in line just touching each other, the line would be more than 100 miles long, and if to this are added the Engines and Powers manufactured by them, the line would be over 200 miles in length. To ship these machines, placing one on each car, would require 25,000 cars, making 1,250 trains of 20 cars each. With such a demand it is easy to see why the firm carries in stock 10,000,000 feet of the choicest air-seasoned lumber. The reason of this success is the fact that the Vibrator is perfectly simple, does not easily get out of order, lasts the longest, and does the best and quickest work. Every article used in its manufacture is the very best that money can buy, and as the firm has abundance of capital, they buy for cash and therefore sell at a price no higher than other parties charge for a poor article. Of course, no one would buy any Threshing Machinery without first examining that made by Nichols, Shepard & Co., Battle Creek, Michigan.

Boils, pimples, and all blood diseases are cured by "Dr. L. Lindsey's Blood Searcher." Sold by all druggists.

## Lippincott's Magazine.

Lippincott's Magazine for July contains two illustrated articles of a light and entertaining character. "The Palace of the Leatherstocking," which is a humorous sketch of artist life in Rome, and "Paradise Plantation," which is a description in a similar vein of amateur farming in Florida. Dr. S. W. Mitchell concludes the interesting account of his tour "Through the Yellowstone Park," and some peculiar phases of Western life are described by Louise Coffin Jones in a paper entitled "On the Skunk River." "A Forgotten American Worth," by Charles Burr Todd, recounts the remarkable career of Joel Barlow, whose name is known to most readers as that of the author of epic poems long since buried in oblivion, but whose philanthropic character and patriotic services entitle him to a higher place in the recollection of his countrymen. "On Spelling Reform" presents some strong arguments against the proposed changes in English orthography. "An Open Look at the Political Situation" criticizes the course of the "Independents," and discusses the chances of Civil Service Reform. "Pipistrello," by "Ouida," is a picturesque and powerfully written story of Italian life. "Adam and Eve" and "Studies in the Siuma" are continued. The poetry is by Emma Lazarus, S. B. Tabb, and H. L. Leonard, and the "Monthly Gospel" and "Literature of the Day" are as good and varied as usual. This number begins the twenty-sixth volume.

Specimen Number mailed, postage paid, to any address, on receipt of 20 cents. Yearly subscription \$4.00. Address J. B. Lippincott & Co., Publishers, 715 and 717 Market Street, Philadelphia.

## Godey's Lady's Book for July, 1880.

The July number of this ever-popular magazine, which opens its 51st year, comes crowded with attractions suitable for the season. For toilet suggestions "Godey" is always unrivaled, and this number contains both illustrations and chit-chat that will be a reliable guide for a summer wardrobe of taste and beauty. The literary matter is, as ever, of the very best, including two entertaining serials, stories and poems of great interest, and a most charming description of a summer home of luxury and one of taste without expense. Every department is perfect in its specialty, and contributors will welcome the July Godey with delight. We will furnish The Times and Godey's Lady's Book for one year at the low price of \$3.00 on application at this office.

## LACES! LACES! LACES!

PAINTING, PAPER HANGING, &c.

Persons wanting Painting, Graining, Paper Hanging, &c., done promptly and at the right price should call on

HENRY RICK, Jr., New Bloomfield, Pa.

Orders by mail will receive prompt attention.

A NEW DEPARTURE!  
BEST PLOW IN THE WORLD!

## THE SYRACUSE CHILLED PLOW CO.

of Syracuse, N. Y.

Are now putting on the market a Plow that is as much superior to any Plow heretofore made as the Plow of the past few years have been superior to those made half a century ago.

It combines all the excellencies of any Plow in use.

It obviates all the objections made to any other Plow.

In addition it embraces several new features of the greatest value, for which we have obtained exclusive Patents.

Its Beam, Clevis, Joints Standard and Wheel Standard will be STEEL, and its mold board will be a composition of Steel and Iron chilled under a process for which we have also obtained an exclusive Patent. It will be called

## THE SYRACUSE CHILLED STEEL PLOW

Its weight will be eighteen pounds less than our present styles.

A first-class Steel Plow, made in the ordinary way, full rigged, retails for twenty-two dollars. Inferior Steel Plows retail from sixteen to nineteen dollars.

The price of our new Plow will be but Seventeen Dollars, and it will be the cheapest Agricultural Implement ever sold.

Its mold board will outwear three of the very best kinds of the ordinary steel mold boards.

It will scour in soils where all steel plows and all other plows have hitherto proved a failure.

With this Plow will be introduced a corrugated Plow Point and Joints Point, on which we have also obtained a Patent, and which is also a great improvement, both as regards strength and wear.

The Joints can be shifted so as to take more or less land, and also more or less pitch, and it can always be kept on a line with the Plow.

The wheel will run under the beam or one side of it as desired, and always kept in line.

The beam is adjustable for Spring or Fall Plowing, and also for two or three horses.

The handles can be adjusted to accommodate a man or boy, on the same Plow.

It is a perfect Plow.

Wooden beams are going out of use because they shrink, swell and warp, and never run two seasons alike.

Iron beams are too heavy.

Malleable beams become demoralized and bend, which is much worse than to break.

A steel beam is the necessity of the day. It is three times as strong and very much lighter than any other style.

When we say a Mold board is chilled, the farmers know it is so.

We do not palm off on them a composition of various metals and call it chilled metal.

We want agents for this new Plow in every town in this State.

We can give but a very small discount to them, but we will pay the Railroad Freight.

We propose to place this Plow in the hands of Farmers as near the cost of manufacture as possible.

It will be the best Agricultural Implement ever sold.

It shall also be the cheapest.

Persons therefore who are not willing to act as agents on the principle that "a shilling's price is better than a slow shilling," need not apply for an agency.

No Plows on commission. All sales absolute.

This is the only Steel Chilled Plow in the World.

Steel costs several times more than Iron.

But this Plow, full rigged, by giving small discounts, can be sold for Seventeen Dollars. Compare this price with that of any Iron Plow ever made.

It is cheaper than any other Plow now made would be at five dollars and a half.

Where there are no agents we will, on receipt of Seventeen Dollars, send a Plow to any Railroad station in the State and pay the freight.

Address,

SYRACUSE CHILLED PLOW CO.

Syracuse, N. Y.

Or 2641st

## MEDICAL NOTICE!

DR. O. P. BOLLINGER,

Having located permanently in

NEW BLOOMFIELD,

Offers his professional services to the citizens of the Borough and surrounding country.

Dr. B. has been engaged in an extensive practice for over 25 years. He has also served his country in the capacity of Surgeon to the 78th Pa. Vol. Infantry during the late Rebellion, holding his Commission from the then Governor of this Commonwealth. His credentials are from one of the best Medical Colleges in America. His success as a practitioner of medicine is acknowledged by recommendations from former patrons, which are free for inspection at all times.

IN THE TREATMENT OF

## Chronic Diseases

he has had very extensive experience, and has cured many hopeless cases, after years of suffering, and expense incurred in seeking relief elsewhere.

Among the many chronic complaints treated successfully are Asthma, Bronchitis, Laryngitis, Hemorrhage of the Lungs, Consumption, (first and second stages,) Heart Disease, Dyspepsia, Liver Complaint, Melancholia, Scrofula or King's Evil, Skin Diseases, Chronic Rheumatism, Gout, or enlargement of the Glands of the neck, Dropsy, Piles, chronic Diarrhoea, Constipation of the Bowels, Sick and Nervous Headache, Neuralgia, Diseases of Females, Tumors, Kidney Diseases, Enlarged Spleen, Epilepsy, Deafness, Chronic Chills and Ague, Diabetes Mellitus, old running sores, Tapeworms removed.

Dr. B. does not confine himself to any one particular system of medicine. He uses all the late improved methods and remedies, as also Magneto-Electric, or

## Medical Electricity,

which is so successfully used at the present day in many forms of nervous complaints. In the treatment of the Lungs and air passages he uses

## INHALATIONS,

which carries the medicine direct to the diseased parts.

When an incurable case presents itself he is free and candid in telling the patient that he cannot cure him, thus avoiding further expense.

In chronic ailments it is always best for patients to call at his office for personal examination and treatment, when that is practicable.

Rooms for the present at The Perry House. CONSULTATION FREE. Bloomfield, May 4, 1880.
