THE BARN on the county farm near Lancaster city, was destroyed by fire on the 4th inst. The cattle were all saved, but the crop of wheat and hay was burned. Some other buildings were slightly damaged. Incendiary.

THE recent editorial change in the "Philadelphia Press" makes it one of the best newspapers in the country. In addition to the editorial change it has recently received a new dress, and is one of the best printed papers in the State. As a reliable Republican paper it has no superior.

DOCTOR TANNER is making a fool of himself in New York. He is trying to convince the world that a fast of forty days and nights is among the possibilities. He is watched day and night by two physicians to see that no nourishment is taken, and to note the symptoms. What good can come from such an exhibition is not stated. For foolish shows, New York can lead the world.—He has now fasted twelve days.

THE Richmond (Va.) Commonwealth says: "We have seen evidences of a disposition to parade before our people the times and places where General Hancock, in the command of the Federal forces, overthrew the Confederate forces. We hope this will be discontinued. Our people have no hankering for crow, however it may be dished." It is a little rough to have Hancock's military record given as a reason why he should be voted for by men who fought in the rebel army.

THE SECRETARY of the Treasury is rather premature in his announcement of the large amount of fractional currency that has been lost. He takes it for granted that the fourteen millions not yet presented for redemption has been destroyed. He will find that much of it is safe, and will yet "come home." Many persons who have small sums of it keep it till they need a fractional part of a dollar to send by mail and in that way a sum that will aggregate a large amount is yet held and is still liable to be sent in for redemption.

THE SEVENTH ANNUAL picnic of the Patrons of Husbandry is to be held at Williams Grove, Cumberland county on August 24th, 25th, 26th and 27th.—According to the circular issued by Mr. R. H. Thomas, chairman of the committee of arrangements, a goodly number of prominent persons will be present and a good time generally can be expected by those who attend. Connected with the picnic will be an agricultural and horticultural exhibition, and agricultural lectures will be delivered on Wednesday, Thursday and Friday by Prof. S. B. Heiges of York.

Weaver Expects to be President.

General Weaver, the Greenback candidate for the Presidency says: "I expect to be President. I expect the Greenbackers will carry Maine, Texas, Wisconsin and Michigan. This will throw the election into the House, and by a combination of Greenbackers, Democrats and Independents, I will be chosen President." Now as we know how it is all to end, what is the use of the other two parties making any fuss about the matter?

Our Cities.

The Census returns for 1880 have been so far completed as to show with reasonable accuracy the populations of most of our larger cities. San Francisco, New Orleans and a few other cities of considerable importance are still unreported. The following are the populations so far as ascertained of the cities exceeding one hundred thousand inhabitants and their populations in 1870:

Table with 3 columns: City Name, Population in 1870, Population in 1880. Includes New York, Philadelphia, Brooklyn, Chicago, St. Louis, Boston, Baltimore, Cincinnati, Washington, Cleveland, Pittsburgh, Buffalo, Newark, Milwaukee, Louisville, Detroit, Providence.

Three Millions Saved.

The secretary of the treasury has returned to the treasury one million dol-

lars of unexpended balance of the appropriation for refunding the national debt into four per cents, and two million of dollars of unexpended balance of the appropriation for collecting the revenue from customs for the last year, being the amounts saved by the department out of the funds authorized to be expended by law.

EDITORIAL EXCURSION.

On Monday evening, June 23th, the members of the Pennsylvania Editorial Association, many of them, accompanied by ladies, met at Williamsport to proceed on their annual excursion. At half-past nine on Tuesday morning, the P. E. R. Company with their usual liberality, started a special train which took the Excursionists through to Watkins, which place was reached about one o'clock. The large number of persons present on this trip made it necessary to divide the party between two hotels—neither being of sufficient capacity to care for the whole number. The Secretary of the Association previous to arrival had rooms assigned each member of the party, some rooming at the Glen Mountain House and some at the Glen Park. The latter hotel is located at the foot of the Glen in the town, while the former is about half a mile up the mountain, in as romantic a place as can be found in the United States. Communication between the houses is had by carriage road along precipices which were appalling to nervous ladies, or by walk up the Glen, which was generally preferred.—Some of the views around Watkins are charming and must be seen to be appreciated. On Wednesday morning a train took the party to the pretty town of Penn Yan, from where the steambot "Vates" carried them to Hammondsport, which is situated at the upper end of lake Keuka, about 20 miles distant.—On the way up, a landing was made at the Urbanna Wine Co's works, where the vaults and other parts of the premises were inspected. Arriving at one of the upper rooms we found that the Superintendent of the works, Col. A. J. Switzer had long tables spread, and arrangements made for a fair test of the various wines manufactured by the company. It was a surprise to many of those present to see the complete arrangements for making and preparing these wines for market. Already the wines made by this Company have a National reputation, and it will not be long before they will generally take the place of imported wines. The still wines made by this Company are valuable for medicinal purposes, owing to their purity and delicacy of flavor.—Reaching Hammondsport, a lunch was served at the Fairchild House, which was unanimously pronounced to be the best meal enjoyed on the trip. The ride up the lake was a delightful one. The shore of the lake on the one side is lined with pretty farms, and on the other side, the banks are covered with vineyards.—Should you visit the town of Penn Yan however, you had best give the hackmen of the place as little chance as possible to "skin" you. The party reached Watkins again at about half-past seven, with good appetites for supper and sufficiently tired to enjoy a good night's sleep. On Thursday morning a portion of the party took the steambot for a short trip up Seneca Lake, others took carriages for Havana Glen, some started for home, and others went to Elmira. We were among the latter, and spent a very pleasant afternoon looking around that place, which we found to be a very pretty city. If you visit that town and want a delightful stopping place, go to the Frazier House. You will find the landlord a gentleman and the house was the best kept of any we visited during our absence. On Friday morning many of the party took the early train for home, while others waited for a special train which had been provided. The Editorial Association is greatly indebted to the Pennsylvania Rail Road Company, and to the untiring exertions of their Secretary, ROBT. S. MENAMIN, for a very pleasant trip.

Destructive Fire in Tyrone.

On Thursday morning at about three o'clock, a fire broke out in the livery stable in the rear of the City Hotel in Tyrone. It spread rapidly over the principal business portion of the town, destroying all the banks and about twenty-five other buildings, including the post-office and opera house. Owing to a lack of water, the citizens became panic-stricken, but the timely arrival of steamers from Altoona and Huntingdon did much to allay the excitement.—Among the buildings destroyed are two banks, the Herald and Democrat printing offices, two jewelry stores, two stationery stores, post office, two dry goods stores and several other business and dwelling houses. The upper story of the City Hotel, corner of Main and Juniata streets, was also burned. Two fire companies from Altoona and one from Huntingdon assisted at the fire. The loss is estimated at \$125,000 to \$150,000 and the insurance at from \$60,000 to \$75,000.

Strange Sight at Sea.

HALIFAX, N. S., July 6.—Mr. Stoddard, second mate of the brigantine Fortunate, which arrived on Sunday from the West Indies, reported that one night while passing along the coast of Florida on a recent voyage a singular phenomenon appeared just after dark. Two columns of fire were seen, seemingly about a mile away. They were about fifty yards apart, and rose to a height of 500 feet, when they reached toward each other, but did not meet. They burned with a steady dull red color, and did not emit any sparks, but at the arching portions emitted tremendous rays or pencils of light similar to an aurora borealis. They appeared in sight all night and gradually faded away as daylight came. The weather was beautifully clear and not a cloud was visible during the entire night. On the following day there was a tremendous thunderstorm.

A Thrashing Engine Disaster.

CINCINNATI, June 6.—A special from Dunkirk, Hardin county, Ohio, says: "The boiler of a thrashing engine exploded here to-day, killing seven and wounding eight persons. Two of the latter have since died and three others, it is said, cannot survive. The engine was made at Easton, N. Y. It was new and had never been used until to-day. The killed are as follows: William Frederick, Richard Case, fireman; Washington Poisel, George Poisel, Amasa Herman, Harry Brown, engineer; unknown man sent out with the engine from Easton. Of the wounded, Robert Thrush and a son of Wm. Frederick have died. The excitement is intense."

Too Much Water.

DES MOINES, July 8.—A terrific rain storm prevailed in this section last night and twenty miles west of here took the form of a water spout. At Vanveter the town was submerged, three feet and forty rods of the embankment of the Chicago and Rock Island road was washed away. The Pacific express which left Chicago yesterday, is side tracked here awaiting repair of the road. At Winterset the Chicago and Rock Island rail road round house was demolished. The corn is crushed to the earth and badly twisted, causing serious damage, it is feared to the crop. The worst effects of the storm are westward.

A Scared Party.

On Thursday a week, during the prevalence of a terrific thunder storm at Chambersburg, a party of colored men were engaged in playing cards, when the lightning suddenly came down the chimney, covering a man and his wife, who were lying on a bed in an upper room, with bricks and mortar. The fluid then entered the lower room, tearing the table at which the players were engaged into a thousand pieces, and thoroughly frightening the darkies. Notwithstanding the force of the concussion was so great as to blow out the windows and damage the house considerably, none of the occupants were seriously injured.

Miscellaneous News Items.

A young man from Brooklyn, a contestant in a walking match at Sag Harbor, L. I., became exhausted on Monday and died after his removal from the track. An attempt of thieves in Lebanon to sulphur a number of bee hives to get at the honey on Saturday last resulted in a fire, by which four hives were destroyed.—Loss \$150. There is an apple tree on the premises of Wm. Plymire, in Washington Co., which bears nine varieties, some of which are now ripe, while others will not ripen until late in the fall. In an affray in Campbell's store in Atascosa county, Texas, on Monday, between the two Dece brothers and two McCoy's, one of each was killed and the others badly wounded. A despatch from Bodie, Mono Co., Colorado, says: "Patrick Carroll, a miser was ejected from the meeting of the Miners' Union Monday night and attempting to re-enter the hall, he was shot dead. He was a native of Lynchburg, Va., and is said to have been a great-grandson of Charles Carroll, of Carrollton. CHARLESTON, S. C., July 6.—A controversy between Col. E. B. C. Cash, of Charleston, and Captain W. L. Depass and Col. W. M. Shannon, of Camden, in this

state, culminated yesterday in a duel between Cash and Shannon, in which the latter was killed. Depass and Cash made arrangements to fight, but did not meet in consequence of the arrest of the former.

SAN FRANCISCO, July 5.—Further details of the powder explosion at Monterey show that while the members of Company G, who had gone down from this city, were preparing to celebrate the Fourth, B. F. Hastings, W. C. Burke and Spencer C. Buckbee, of the company, entered a Magazine tent where the powder was stored, to prepare cartridges for the cannon. Hastings took a hatchet to open a twenty-five-pound can of powder. At the first blow the explosion occurred. Burke was almost instantly killed, and Hastings mangled and burned past recognition. He may possibly survive. Buckbee was only slightly hurt. The tent and its contents and all articles in the vicinity were blown in all directions.

ANNOUNCEMENT.

LIFE OF GENERAL JAMES A. GARFIELD. The well known publishing house of Hubbard Bros., Philadelphia, have in preparation, and will soon issue, the life of General James A. Garfield, written by his contract in arms, and personal friend, General J. S. Brislin, of the regular army. The career of this distinguished candidate has rarely been equaled in points of romantic interest, and the more closely it is studied the more wonderful and inspiring it appears. It furnishes material for a volume of deep and permanent interest and value. We are glad that its preparations have been placed in hands so competent. The brilliant qualities of General Britain, both as a soldier and an author, are well known, and his personal relations to General Garfield are such as will give to his narrative the utmost fullness and authority of statement. It will be a book of more than passing interest, and in this respect widely different from ordinary campaign literature. It will be sold only by subscription, and must meet with a very large sale.
