A well on the McMeen farm in Turbett twp., Juniata county, that has never before failed, has suddenly gone dry. Several times the owner has tried to pump it dry but without success, and the sudden freak is a mystery.

The fire at West Fairview, Cumber-In hire at west rairview, Cumber-land county, was not as serious as was at first reported. The loss is about \$700. The Lutheran church was injured, but not destroyed. A fire having occurred on the same premises four years ago, the cause of the fire was investigated, whic' resulted in a verdict of cause un-Luown.

Jackson Bros', feed room, New But-falo was entered and a quantity of oats stolen on Friday morning just as day was dawning. The thief was seen in was dawning. The thief was seen in the obscure light with a filled sack on his shoulder, but before any of the inheates of the house could get down he had disappeared. 'Squire Wait issued a warrant to search the boat of a person suspected. The object was to find the stolen sack, but was attended with no stillness. Record. success .- Record.

The large, fine barn of Andrew Swarzell in Milroy, with his year's crop of wheat, oats and hay, a reaper and threshing machine, was burned last week. A man named Shipton, somewhat weak minded, is supposed to be he author of the disaster, and is believed to have fired the building to accomplish its suicide. That is the present theory, as he has not been seen since, although ne trace of his remains have been found in he debris so far. Mr. Swarzell was insired for \$2,800, and will still be short \$500 or \$600.

A 'emperance Woods Meeting will be held in the old pienic grove, near Wright's school house, in Greenwood towned p, two miles southeast of Millerstown, es Saturday, August 28, 1880.—Speaking at ten o'clock, A. M. That notic champion, Rev. J. Hervey Dobbs, and others will make a kiresses. All friends of the cause are carnestly invited to participate. Arranged and managed by Wright's Christian Temperance Union.

A Narrow Escape .- On Friday morning as the second section of the Fast line east, was running at a rapid rate around the curve below Duncannon, the flange, of the wheels of the engine broke, and in an instant the whole train was off the track. The train consisted of five cars, two express, one passenger and two Pullman sleepers, and all were more or less damaged by the accident. Fortunately none of them were overturned. The trucks were torn from beneath them while going over the ties.

Poisoned.-One night last week Mr. Jacob Shuman, of Millerstown, made a mistake which came near terminating his existence, so far as this world is concerned. He had been alling for several days, and at stated periods had medicine to take, and, on the night in question, got out of bed and took a tea spoonful of what he thought was his medicine, but after returning he again grew very sick and again got out of bed. This time he discovered that he had made a mistake and took a dose of a solution of corrosive sublimate, a polsion used for killing bed bugs. Realizing his situation, a messenger was at once sent for Dr. S. Stites, who lives a few doors distant, who, upon learning the facts of the case, administered an emetic and some other antidotes, succeeding in relieving the sufferer and saving his life.-Ledger.

Found Dead .- On Friday morning Michael F. Myers, in the employ of John Sheaffer, living on the Charley Killian (deceased) farm, north-west of town, went out to plow. Not returning at noon, one of the family went to the field to learn the cause of the detention, and on arriving found him lying in the furrow dead, with the horses a few feet from him. Information was left with 'Squire M'Candlish, and to meet the requirements of the law a jury was summoned which elicited the fact that the deceased had been in uncertain health and his death was from natural causes, believed to be an affection of the heart .-Newville Star.

Ralph E. Rolland, the Chambersburg bank robber, died on Saturday a week in his cell in the Eastern Penitentlary, of Bright's disease of the Kidneys. Aged about forty years.

Now that the bank robber Clermont, or Rolland as he is called, is gone a legal complication is likely to ensue over the possession of the diamonds which were found concealed in a shaving brush handle, and taken from him at the time of his attempted escape from the penitentiary in December last. They are supposed to be worth over \$10,000, but have not been officially valued. This will be done in a few days. There are forty-two stones altogether, and all have marks showing that they have been in settings, either as a necklace or brooch and earrings. It is altogether probable that the woman claiming to be his second wife, from whom Clermont, who then went under an assumed name, filched a valuable set of diamonds, will put in a claim, and the Chicago woman will also have a say. Clermont's father has not been heard from.

The Chambersburg Murder. - In regard to this case the Repository says; On Wednesday Adam Dengler, residing in this place, called on the District Attorney, said he was with Allison that night all told all he knew in regard to the horrible affair. Part of the statement is withheld in order not to subvert the ends of justice. We are permmitted, however, to give the following: He says he and Allison were digging up potatoes when they were suddenly surprised by the appearance of Stouffer in the field with a gun. They both started to run, Dengler running diagonally across the field towards Kennedy's woods. Stouffer called to them and immediately fired. Dengler says he was struck in the shoulder himself with part of the load and fell several times. He went over to Kennedy's woods where he got very sick and started for home as he thought Allison had escaped unhurt. This is all we are at liberty to disclose. No doubt a number of our readers will wonder why this and that was not done, but as the case is to go before a jury when a clear and impartial verdict will be rendered, we have no comments to make on the question.

Snakes.-The Chambersburg Opinion says: On Monday the 26th ult., as W. H. M'Cleary, Clayton Poe, Jacob Poe and George Poe, were walking along the foot of the North Mountain, near White Rock, above Wm. Keefer's, when they came upon a den of rattle snakes. Cutting sticks, they prepared for the battle, and charged upon the enemy, kifling seventeen from one to four feet in length. Two large reptiles escaped under the rocks. In the conflict a great many rattles were knocked off, but two were secured with eleven rattles eachmaking them fourteen years old.

A Close Shave.-On Saturday a horse belonging to Mr. John Withrow got a foot fast in crossing the railroad by the mill at Newport and fell, breaking a shaft of the wagon. Fortunately Mr. W. managed to get the horse up without further damage. Had the accident happened three minutes later the horse would have been torn to pleces by the fast line, which whizzed by just after the track was cleared This is the second horse that has got a foot fast at that crossing within a week, which would seem to indicate that repairs were needed.

Juniata County .- We copy the follow ing from the Juniala county papers of last week ;

A four-year old son of Ephriam Guss, of Milford twp., had his right arm fractured recently by falling from the barn loft to the floor below.

On the 23d ult., two sons of Mr. Urlah Wise, who resides on Mrs. Amelia Turbett's farm, in Turbett twp., killed 99 snakes. In one nest there were 66 blowing vipers, and in another 33 copperheads.—Port Royal Times.

A ten-year old son of Bucks DeHuff while playing on the railroad track in Patterson Tuesday noon was struck by an engine and knocked therefrom.—Strange to say he was but slightly hurt,—receiving a small scalp wound.

Wm. Dunn, Esq., of Fayette twp., fell into a quarry fifteen feet deep, in Millintown, on Monday night of last week. He was picked up and assisted to Banks' drug store. Upon examination it was found he had received several scalp wounds, his right arm bafly cut and a rib fractured. The Doctor dressed the proper freet. wounds and rendered the proper treatment to relieve his sufferings. He was then taken to Wilts' hotel. 'Squire Dunn is in his 70th year and has a crippled leg. It was a miracle that he escaped instant death in the fall. He is still lying at Wilts' hotel where he is receiving good attention.

Cumberland County .- We copy the following from the Cumberland papers of last week :

Dr. Geo. Hurley has been driving a rather brisk rattlesuake trade this scason. He succeeded the other day in disposing of twelve rattlers at one time to one man, receiving in payment a two-year old blooded stallion. The gentle-

man who got the snakes lives somewhere in the lower end of the county. Just what he wanted with so many snakes we have not learned.

we have not learned.

On Saturday morning last a six-yearold son of our townsman Geo, Frederick, blacksmith, met with an accident
which will probably cripple him for
life. The little fellow was playing on
West North street shortly after market
hours. At the same time Mr. Henry
Swigert, farmer of Frankfort twp., was
driving home in a wagon at a brisk rate
and the child unobserved by the driver,
was struck and run over by the wagon.
The little one was at once taken up, and
carried to his grandfather's residence on
Pitt street, and Dr. S. B. Kieffer sent
for. Upon examining the child, the
Doctor discovered that its left arm was
broken above the elbow and the shoulder cap had sustained two very serious
fractures. All was done that surgical
skill could do to reduce the fractures and
relieve the sufferer, but fears are entertained that the little one may permanently lose the use of its arm.

On Sunday morning Officer Best, of

On Sunday morning Officer Best, of Newville, brought to town a colored man named Tom Williams, of Mechan-icsburg, who was captured on the Kersville campmeeting grounds, selling whiskey. Williams was brought to town, and held to answer for court.

A bass, caught by G. B. Longnecker, on being opened was found to contain part of a house snake about a foot long. Another contained a whole water snake one and a half feet in length. The appe-tite for this fish is not nearly so great, as it was some time ago.

At the Reformed church picnic held at Pine Grove on last Tuesday, Annie, a little son of Mr. Johnson Wareham, of Carlisle narrowly escaped drowning. She was walking near the boating pond, when she stumbled and fell into the water. The prompt action of a Mr. Tomlinson, alone saved her life.

One day last week officer Rippey, of Shippensburg, brought James Martin and Dr. Hatten to this place and committed them to prison on a charge of arson. It seems that Shippensburg is infested with a desperate at of most infested with a desperate set of men, who seem to take delight in burning property. There are now three in prison from that place to be tried for burning at the approaching August Sessions.

On Monday evening last, while Mrs. Jane McLaughlin, wife of Robert McLaughlin, dee'd, was on her way home, and when opposite Mr. C. Bowermaster's house, she felf to the ground, apparently in a spasm. She was carried into the house, and a physician summoned, who pronounced it a paralytic stroke. She lingered in an unconscious condition for about half an hour, when she died.—Newville Star. she dled.-Newville Star.

Eleven Pueblo children, seven boys and four girls, arrived at the Indian school on Saturday evening, from New Mexico, in charge of Rev. Sheldon Jackson. They are representatives of a tribe which came under the Spanish yoke when the Southwest was conquered, and as a rule speak the Spanish language and observe Spanish customs. They are not as shy of white people as their northern brethren, and appear exceptionally bright.

A cat belonging to Mr. Jesse Brindle, in Monroe twp., has a nest of young of a queer mixture. The young consist of three kittens and two rabbits of a tender age, all of which it is said, suckle the old cat, and come in for an equal share of her attention. The nest, when first old cat, and come in for an equal share of her attention. The nest, when first discovered, was upon a spring wagon, four feet or so from the ground, and just how the rabbits got there is not known, but it is supposed that the cat found them somewhere in the fields and prompted by her irresistable motherly instinct adopted them and conveyed them to her home.

A most painful accident occurred in the neighborhood of Plainfield, in this county, on Monday last, which should teach persons in the habit of handling guns carelessaly in their houses, or any-where else, when others are near them, the extreme danger of the practice. A Mr. Absalom Shaw, who had returned home from parade with a loaded gun, which he had, as we learn, made several fruitless attempts to discharge, fearing, we presume, to let it stand loaded at home, was picking his flint in order to make another effort to remove the loads, make another effort to remove the loads, when, just as his wife was passing before the muzzle, a spark ignited the priming, and the gun going off the entire contents passed through her head, killing her upon the spot. The unfortunate husband, a stone mason, who has been working at the new college building, has, we learn, been in a state bordering on insanity ever since." on insanity ever since.
