

The Bloomfield Times. HOUSE, FARM AND GARDEN.

THE IDLENESS OF GIRLS.

Another great mistake that many of our girls are making, and that their mothers are either encouraging or allowing them to make, is that of spending their time out of school in idleness or in frivolous amusements, doing no work to speak of and learning nothing about the practical duties and the serious cares of life.

"Within the last week," says one of my correspondents, "I have heard two mothers, worthy women in most respects, say, the first that her daughter never did any sweeping. Why, if she wants to say to her companions, 'I never swept a room in my life,' and takes any comfort in it, let her say it; and yet that mother is sorrowing over the shortcomings of that very daughter. The other said that she would not let her daughter do anything in the kitchen. Poor deluded woman! She did it all herself instead!"

The habit of idleness and of helplessness that is thus formed are not the greatest evils resulting from this bad practice; the selfishness that it fosters is the worst thing about it. How devoid of conscience, how lacking of all true sense of tenderness, or even of justice, a girl must be who will consent to devote all her time out of school to pleasuring, while her mother is bearing all the heavy burdens of the household! And the foolish way in which mothers themselves sometimes talk about this, even in the presence of their children, is mischievous in the extreme.

"O, Hattie is so absorbed with her books, or crayons, or her embroidery, that she takes no interest in household matters, and I do not like to call upon her." As if the daughter belonged to a superior order of beings, and must not soil her hands or ruffle her temper with necessary household work! The mother is the drudge; the daughter is the fine lady for whom she toils. No mother who suffers such a state of things as this can preserve the respect of her daughter, and the respect of her daughter no mother can afford to lose.

The result of all this is to form in the minds of many girls not only a distaste for labor, but a contempt for it, and a purpose to avoid it as long as they live by some means or other.

Vanilla Cream With Fruit Sauce.

Make a nice custard with a pint of rich milk and the yolks of five eggs, a scant cup of sugar and vanilla to taste. When this custard thickens, take it off the fire, and add, while still hot, half a box of gelatine previously dissolved in cold water. Wet a mould, pour in the cream, and set it on ice. When set, turn it out on a deep dish, arrange a bunch of fine candied cherries on top, and pour around it sauce made of red cherries stewed, sweetened, strained and slightly thickened with corn-starch.

Cream Soup.

Take a quart of good mutton or veal stock, cut an onion in quarters, slice three potatoes very thin and put them in the stock, with a small piece of mace: boil gently for an hour, then strain.—The potatoes should by this time have dissolved. Add a pint of rich milk—half milk, half cream—with enough corn starch in it to make the soup almost as thick as cream. Add also a piece of nice fresh butter, and just before serving a little finely-chopped parsley.

Fish Pudding.

Three pounds of boiled fish; a large lump of butter; a tablespoonful of flour; two cups of fresh milk. When boiled it must cool a little. Add to this the yolk of seven eggs, the whites beaten, and stir it round; then add, salt, pepper and nutmeg. Put it in a buttered dish, and cook for one hour in a pretty warm oven, and then serve. Sauce—Flour and butter and a little broth capers.—This will be found an excellent and toothsome dish.

Eighty-Five Dollars Lost.

"You do not tell me that your husband is up and about again, and entirely cured by so simple a medicine as Parker's Ginger Tonic?" "Yes, indeed, I do," said Mrs. Benjamin to her enquiring neighbor, "and that too when we had foolishly paid eighty-five dollars in doctor's bills and prescriptions, and after he had been given up by his physicians to die. Now my husband feels as well as ever, entirely cured by this excellent Tonic." And many a sick man might be well in a week if they would only try it.

A NEW DEPARTURE! BEST PLOW IN THE WORLD!

THE SYRACUSE CHILLED PLOW CO. of Syracuse, N. Y. Are now putting on the market a Plow that is as much superior to any Plow heretofore made as the Plows of the past few years have been superior to those made half a century ago.

THE SYRACUSE CHILLED STEEL PLOW

Its weight will be eighteen pounds less than our present styles. A first-class Steel Plow, made in the ordinary way, full rigged, retails for twenty-two dollars. Inferior Steel Plows retail from sixteen to nineteen dollars.

The price of our new Plow will be but Seventeen Dollars, and it will be the cheapest Agricultural Implement ever sold.

It will scour in soils where all steel plows and all other plows have hitherto proved a failure.

With this Plow will be introduced a corrugated Plow Point and Jointer Point, on which we have also obtained a Patent, and which is also a great improvement, both as regards strength and wear.

The Jointer can be shifted so as to take more or less land, and also more or less pitch, and it can always be kept on a line with the Plow.

The wheel will run under the beam or one side of it as desired, and always kept in line. The beam is adjustable for Spring or Fall Plowing, and also for two or three horses.

The handles can be adjusted to accommodate a man or boy, on the same Plow. It is a perfect Plow.

Wooden beams are going out of use because they shrink, swell and warp, and never run two seasons alike. Iron beams are too heavy. Malleable beams become demoralized and bend, which is much worse than to break.

A steel beam is the necessity of the day. It is three times as strong and very much lighter than any other style. When we say a Mold board is chilled, the farmers know it is so.

We do not palm off on them a composition of various metals and call it chilled metal. We want agents for this new Plow in every town in this State.

We can give but a very small discount to them, but we will pay the Railroad Freight. We propose to place this Plow in the hands of Farmers as near the cost of manufacture as possible.

It will be the best Agricultural Implement ever sold.

PARKER'S GINGER TONIC
