A NEW DEPARTURE!

BEST PLOW IN THE WORLD!

THE SYRACUSE CHILLED PLOW CO. of Syracuse, N. Y. Are now putting on the market a Plow that is as much superior to any Plow heretofore made as the Plows of the past few years have been superior to those made half a century ago.

It combines all the excellences of any Plow in use. It obviates all the objections made to any other Plow.

In addition it embraces several new features of the greatest value, for which we have obtained exclusive Patents.

Its Beam, Clovis, Jolster Standard and Wheel Standard will be STEEL, and its mold board will be a composition of Steel and Iron chilled under a process for which we have also obtained an exclusive Patent. It will be called

THE SYRACUSE CHILLED STEEL PLOW

Its weight will be eighteen pounds less than our present styles.

A first-class Steel Plow, made in the ordinary way, full rigged, retails for twenty-two dollars. Inferior Steel Plows retail from sixteen to nineteen dollars.

The price of our new Plow will be but Seventeen Dollars, and it will be the cheapest Agricultural Implement ever sold.

Its mold board will outwear three of the very best kinds of the ordinary steel mold boards.

It will scour in soils where all steel plows and all other plows have hitherto proved a failure.

With this Plow will be introduced a corrugated Plow Point and Jointer Point, on which we have also obtained a Patent, and which is also a great improvement, both as regards strength and wear.

The Jointer can be shifted so as to take more or less land, and also more or less pitch, and it can always be kept on a line with the Plow.

The wheel will run under the beam or one side of it as desired, and always kept in line. The beam is adjustable for Spring or Fall Plowing, and also for two or three horses.

The handles can be adjusted to accommodate a man or boy, on the same Plow. It is a perfect Plow.

Wooden beams are going out of use because they shrink, swell and warp, and never run two seasons alike.

Iron beams are too heavy. Malicious beams become demoralized and bend, which is much worse than break.

A steel beam is the necessity of the day. It is three times as strong and very much lighter than any other style.

When we say a Mold board is chilled, the farmers know it is so. We do not palm off on them a composition of various metals and call it chilled metal.

We want agents for this new Plow in every town in this State.

We can give but a very small discount to them, but we will pay the Railroad Freight. We propose to place this Plow in the hands of Farmers as near the cost of manufacture as possible.

It will be the best Agricultural Implement ever sold. It shall also be the cheapest.

Persons therefore who are not willing to act as agents on the principle that "a nimble shillings is better than a slow shilling," need not apply for an agency.

No Plows on commission. All sales absolute. This is the only Steel Chilled Plow in the World.

Steel costs several times more than iron. But this Plow, full rigged, by giving small discounts, can be sold for Seventeen Dollars. Compare this price with that of any Iron Plow ever made.

It is cheaper than any other Plow now made would be at five dollars and a half.

Where there are no agents we will, on receipt of Seventeen Dollars, send a Plow to any Railroad station in the State and pay the freight. Address, SYRACUSE CHILLED PLOW CO., Syracuse, N. Y.

What is that which no man wishes to have and no one wishes to lose? A bald head.

It is useless for a man to sing, "Oh, for a mansion in the skies," while he owes for a mansion or other honest debts, here.

Thomas Quart is an Indian. His family is just a gallon—himself, his wife, a son and a daughter. Of course you see the pint.

"Have you given electricity a trial for your complaint, madam?" asked the minister as he was taking tea with the old lady. "Electricity!" said she "I reckon I have. I was struck by lightning last summer and sent through the window, but it did me no good."

"Old woman how do you sell beads?" asked a New Orleans buxom of an old vegetable woman in the French market, yesterday. Looking at him from head to foot, she replied: "Ven I haf some like you vas I sell them two for a cent abice."

He was sitting in the parlor with her when a rooster crowed in the yard, and leaning over he said: "Chanticleer," "I wish to gracious you would," she said! "I'm sleepy as can be." He took his hat and left, and hasn't been back since.

Some gentlemen were remarking on the entire absence of resemblance between two brothers: "I consider them strikingly alike," said one of the party. "Alike?" exclaimed the astonished group; "why what likeness can you possibly see between them?" "Well, they're both confounded fools," was the reply.

A Dutchman in one of the counties of Pennsylvania, wanted a minister to preach at his child's funeral, and wasn't unreasonably particular as to who came. "Chon" said he, "go and call der circus preacher to come, and if he can't den get der locust preacher, and if der locust preacher can't come why den get der extortioner." (exhorter.)

A lady at Lancaster, Pa., threw her arm around a lady friend, when a pair of scissors, concealed about her person, cut an artery in her arm and she bled nearly to death. Girls cannot be too careful about hugging each other. Men do not carry scissors, or if they do they lay them away, or get a check for them, when the hugging commences.

It was a talkative Englishman who was bragging of what superior things they had in the "hold country" to everything here, and it was a serious-faced Yankee who said: "Well, I will allow there is one thing in England better than we find here—there is a much better class of Englishman there." It took the Englishman half a day to discover that the remark didn't convey a personal compliment.

The minister stopped at a house on south side last week and sought to improve the time by giving an eight-year-old boy an instructive lesson in morality. "My boy," said the minister, "I have lived forty-five years and have never used tobacco in any form, nor told a lie, nor uttered an oath, nor played truant, nor—" "Gimminy crickets!" interrupted the lad, "yer ain't had any fun at all, have ye?"
