The Bloomfield Cimes.

HOUSE, FARM AND GARDEN.

Pigeons on the Farm.

No one can visit a poultry show without being at times struck with the great numbers and variety of pigeons. It is not unusual to find bundreds of them on exhibition, and a score of varieties .-These have not been favorite birds with farmers, as they regard them as inclined to pull up corn and scatter excrement about the barn.

As for their reputation for mischief, they are in this respect like other birds, charged with the damage done, but not credited with the good they do. Pigeons are great scavengers, devouring multitudes of insects, and among others the canker worms, which do so much damage to apple trees. Judging from my own experience, which has not been limited, they do four-fold more good than mischief. As for their dirtying the premises, this is the fault of the farmer. Furnish them a convenient dove cote, and keep tight barns, and the excrement will be found where it can be put to good use as a fertilizer.

Squabs are becoming a favorite dish with the wealthy people, who are willing to pay a high price for them, and farmers should see to it that the market is well supplied with such food as is in demand and pays well. It is a pleasant feature of the farm house to see doves flying around it. They give animation to a scene which, otherwise, might be a little lifeless; and as they pick up their own living mainly, and are very prolific, a good dish for home and for market can be cheaply furnished.

Do Not Sleep on the Floor.

It is unhealthy to sleep on the floor .-The late Canon Kingsley explained the reason for this in a simple way which will enable plain people to understand it. He describes what he calls " the two breaths," and their effects. The two are, of course, the breath taken in, which "is, or ought to be pure air, composed on the whole of oxygen and nitrogen, with a minute portion of carbenic acid," and the breath given out, which, " is an impure air, to which has been added, among other matters which will not support life, an excess of car-bonic acid." He then points out that this carbonic acid gas, when warm, is lighter than the air and ascends, and when at the same temperature as common air is heavier than that air and descends, lying along the floor, "just as it lies often in the bottom of old wells or brewers' vats, as a stratum of poison, killing occasionally the men who descend into it." Hence a word of admonition is addressed to those who think nothing of sleeping on the floor; and hence as "the poor are too apt in times of distress to pawn their bedsteads and keep their beds," the friends of the poor are entreated never to let that happen, and to "keep the bedstead, whatever else may go, to save the sleeper from carbonic acid on the floor.

Fall Rye and Canada Thistles.

"I took," says the Uxbridge (Mass. farmer, "one of the most exhausted fields on my farm and completely overrun with the well-known pest, Canada thistle, plowed it deep in the latter part of September and sowed two bushels per sere of fall rye. In the spring I turned on all my stock about the 20th of April and kept them on till the 24th of May, when they had it cropped so close that I took them off for a week to give the rye a start. The last week in June I plowed the field about nine inches in depth, harrowed well and in about two weeks gauged it over and harrowed it again about the 1st of August. I put on then about twelve loads of well rotted manure per acre on the highest parts and gauged it down September 1, ridged it up about six inches deep and sowed it with a broadcast seeder 2 bushels to the acre of Clawson wheat, weighing sixty-one pounds to the bushel, and all the thistles could have been bound into one small sheaf. Soil, part clay loam and part sandy loam, but a clay subsoil."

Eighty-Five Dollars Lost.

"You do not tell me that your husband is up and about again, and entirely cured by so simple a medicine as Parker's Ginger Tonio?" "Yes, indeed, I do," said Mrs. Benjamin to her enquiring neighbor," and that too when we had foolishly paid eighty-five dollars in doctor's bills and prescriptions, and after he had been given up by his physicians to die. Now my husband feels as well as ever, entirely cured by this excellent Tonic." And many a sick man might be well in a week if they would only try it. try it.

Thousands of women have been entirely cured of the most stubborn cases of female weakness by the use of Lydia E. Pinkbam's Vegetable Com-pound. Send to Mrs. Lydia E. Pink-ham, 233 Western Avenue, Lynn, Mass., for pamphilate

KENDALL'S SPAVIN CURE!

THE MOST SUCCESSFUL REMEDY EVER discovered, as it is certain in its effects and does not blister. Read Proof Below.

From Rev. N. P. Granger,

Presiding Elder of the St. Albans District. St. Albans, Vt., Jan. 20th, 1880. St. Albans, Vt., Jan. 20th, 1880.

DR. J. B. KENDALL & CO., Gents: — In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by Spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ring-bene was forming. I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours.

P. N. GRANGER.

Perseverance Will Tell!

Perseverance Will Tell!

Stoughton, Mass., March 16th, 1880.

B. J. Kendall & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed TWO BONE SPAVINS with Kendall's Spavin Cure," one very large one; don't know how long the Spavin had been there. I have owned the horse eight months. It took me four months to take the large one off, and two months for the small one. I have used 10 bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or fell. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me its sale will be very great.

Respectfully yours.

CHAS. E. PARKER.

Is sure in effects, mild in its action as it does not blister, and yet is penetrating and powerful to reach any deep seated pain or to remove any bony growth or any other enlargement, if used for several days, such as spavins, splints, curbs, callous, sprains, swellings, any lameness and all enlargements of the joints or limbs, or rheumalism in man and for any purpose for which a liniment for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects. It is used full strength with perfect safety at all seasons of the year.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No

year.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success, to our knowledge, for beast as well as man. Price \$1. per bottle, or \$ix bottles for \$5. All Druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors.
