On Saturday a week a boy whose name we did not learn, had a leg broken by coming in collision with a two horse sled while coasting on the hill near the Duncannon Grist Mill.

An operator at the tower in the Cove, was considerably burned a few days since by throwing some coal into the stove from a bucket into which a brakeman had emptied his lamp.

We call attention to the advertisement of the Seller property near this town. For further particulars read description of property No. 7 in the list advertised by C. B. Harnish.

Mr. George Barnett recently sold two of his horses, for which he got \$400. Though they only counted as two the animals weighed enough for three, which perhaps accounts for the price.

The new time table makes the mail train west arrive at Newport 20 minutes earlier, and the Johnstown Express and Mail east, both some minutes earlier. See corrected schedule.

Wm. F. Miller, of New Buffalo, who was wounded in the knee by a butcher knife several weeks since, which was then noticed in THE TIMES, has since died from the injury, mortification having set in.

A young lady who has studied astronomy several terms sat down on the side walk in front of the Presbyterian church last week and discovered more new stars in a second than she can tell about in a year.

John Geedy of Spring twp., a young man about 17 years of age, fell and dislocated his shoulder. Dr. J. P. Sheeder of Shermansdale was called and reduced the dislocation in a very satisfactory manner.

A few days ago Mr. B. M. Eby of Newport cut his wrist severely by a bottle breaking in his hands while uncorking it. Ben carries his hand in a sling which makes him rather awkward in putting up small packages.

Mr. W. V. Orner, of Altoona, accompanied by two children, drove from that place to the residence of his father, near Millersburg in this county, a few days ago. They made the journey in two days. It was a long sleigh ride, it being a little over one hundred miles.

The Middleburg Post says: On last Thursday, Jesse Haslet and Jacob Breon were cutting wood in the woods. The wood was frozen and Haslet's axe glanced and cut Mr. Breon in the side, below the ribs and but the fraction of an inch from the spinal column. The gash was

the length of the bit and about two inches deep.

Thursday night in coming up from Newport we met a man who was trotting along in the shafts drawing his sleigh. This being rather an unusual proceeding we inquired and found that his horse had fallen near the turn of the lane and the driver was unable to get him up. He thought he was sick and left him lying on the road. Shortly after he was gone the animal got up and wandered to the premises of Mr. S. H. Whitmer, who fed and cared for her which seemed to be all that was required. The animal belonged to Mr. Basline living at the foot of the Narrows, in Oliver township.

It is claimed that J. English West Esq., of McVeytown has the most stylish team in the Central part of the State.

**Too Much Weight.**—The accumulation of snow with the rain of Friday was too much for some of the roofs. Many persons cleaned off the snow and some who did not, wish they had. In this place the roof of the shed belonging to Rine-smith's hotel fell in burying the cow not hurting her, fortunately, but smashing a sleigh and buggy badly.

**Tobacco Shipment.**—Mr. M. B. Stambaugh the enterprising Market car man of Newport, took a car load of Tobacco, leaf about five tons, to the lower end of Lancaster County, for the Newport Tobacco Co., on Friday of last week.—As he had been detained on his Philadelphia trip until Thursday evening, the tobacco had to be loaded in the night in order to be in time to permit him to make the extra trip and not interfere with his regular one on Monday. The Company are packing the tobacco there this year, because they have no suitable buildings at Newport, which inconvenience they expect to remedy next year.

**Marysville Items.**—Our Marysville correspondent sends the following: The Seidel Brothers, proprietors of Perry Forge, have in the past year made some important and valuable additions to their works, and at present they have a six tyred runout fire, in which coke is used for fuel. The blast is produced by steam. In the forge there are seven fires, in which charcoal is used for fuel. The hammer is propelled by water. Product is all kinds of blooms, made from pig iron. These blooms are used in manufacturing best grades of boiler plate, wire, and sheet iron. They can readily turn out 200 tons, of 2240 pounds each, per month, and at present are working to their fullest capacity, with encouraging prospects of its continuance for some time to come. Edison's Phonograph has been on exhibition here during the past week. It was purchased by James Haney and Abe Ellenberger. To say that it is a wonder fully expresses our appreciation of it. It reproduces with startling distinctness, anything that may be said to it. We heard it laugh, sing and cough so naturally indeed that we were in doubt as to whether there might not be a ventriloquist about. We were satisfied however when after speaking to it, we were greeted by a repetition of what we had just said. Our enterprising school teachers had it in each of their school rooms on exhibition. It afforded an excellent opportunity of a talk on Edison. Messrs. Haney and Ellenberger were informed with exhibit it throughout the county next month.

The terrible rain and storm of the night of the 20th, blew down telegraph poles and destroyed communication north and south of us so as to delay railroad transportation all day yesterday, 21st. An engineer while carefully running above Fairview discovered, in time to prevent any accident, a telegraph pole lying across the track, which with the help of his fireman was removed before they could proceed.

FOR THE TIMES.

NEW BUFFALO, Jan. 17, 1881.

**EDITOR OF THE TIMES:**—Sunday morning last was the occasion of one of those sad scenes which now and again occur to impress us with the uncertainty of life. It was the burial day of Mr. Wm. F. Miller, who died the Thursday previous from the consequences of an accident.

The deceased was in the thirty-third year of his life and a noble type of vigorous manhood. Possessed of social qualities which made him a general favorite, the news of his sudden death came with more than ordinary poignancy to the hearts of those who knew his worth and virtues.

From every direction, over the mountains and over the frozen river, from up stream and down, sleds and sleighs gathered to the house of mourning. Fifty-six overloaded conveyances were in the funeral line, and when the Hill Church was reached it seemed as if Borough and township to the last man and woman had gathered there to add their share of sorrow and regret to the solemn obsequies of a well loved neighbor and friend.

The Rev. Mr. Sheeder, the Lutheran minister, offered the prayer and was followed by Rev. T. M. Griffith of the M. E. Church, in an eloquent sermon on the subject, "Our obligations to God in the varied conditions of life," spoke in touching terms of the deceased and in comforting words to his wife and children.

The bearers were Messrs. Nat Noble, Morris Custer, George W. Rider, Wm. Hemperly, Calvin Liddick and Hiram Wells, who lowered their young, genial and generous associate and friend into the cold grave amid the heartrending cries of kindred, and the bleak winds of winter gave their sighing moans as the clouds fell on his last and narrow resting place as if in sympathy with the sad scene.

A FRIEND.

**Cumberland County.**—We copy the following from the Cumberland papers of last week:

The wife of Mr. John Enck, residing in Silver Spring township, near Hickorytown fell dead on Tuesday morning.—The cause was supposed to be heart disease.

Samuel Shults, a well known young man, formerly of Perry county, but at present living with J. V. Bowman, was taken very ill one evening last week.—He was unable to speak for several days and was not expected to live any length of time. At this writing he was revived somewhat and can speak.

On Friday evening last when Henry Hildebrand, of the South ward, came home he found his wife lying on the floor in an insensible condition. She had evidently lain there a good while as she had been vomiting and what she had thrown up was frozen. Dr. Stewart was sent for who pronounced the con-

dition apoplectic, and before morning she was dead. Mrs. Hildebrand was Christiana Hower before marriage and was well known in this community.—*Newville Star.*

On Friday afternoon of last week, while Mrs. Eliza Burchell was walking in the yard of her residence, corner Main and Penn Streets, this Borough, she slipped on the ice and fell, breaking the thigh bone of her right leg. Dr. Howland was called, and has done all he can to make her comfortable, but, she being upwards of seventy years of age, little hopes are entertained of her ever being able to again have the use of her limb. This makes the third person having met with a similar accident in the same locality.—*Shippensburg News.*

**Juniata County.**—We copy the following from the Juniata county papers of last week:

On Thursday last a valuable cow belonging to Mr. D. R. P. Bealor walked on the track in front of the Pacific express east and was carried to the other end of the Iron bridge below town, on the front of the engine, when the train was stopped and the cow was taken off. The poor brute was so badly injured that she had to be killed. It was well that the cow did not fall through the open space between the cow catcher and the boiler of the engine, else the train would certainly have been thrown from the track, and there is no telling how many lives would have been lost, as the cars were full of passengers.

On Saturday morning Master Hall Dunlap went coasting on the river bank and while going down a steep embankment he fell off his sled, sustaining injuries about his face and head which rendered him insensible. He was brought home in an unconscious condition by some of his playmates. Dr. Shelley was summoned and administered to the little fellow's medical wants. He worked in convulsions for several hours, and it was feared his injuries would prove fatal, but we are glad to say he is out of danger and able to go about again.—*Port Royal Times.*

On Monday evening as Will. Sandoe was coasting down Kauffman's hill with little Katie Books on his sled, some party going up with an empty sled let it swing out on the coasting track where it came in collision with Sandoe's sled, dislocating one of the bones in Katie's ankle.
