The Bloomfield Eimes.

HOUSE, FARM AND GARDEN,

Measuring Corn.

A number of rules for measuring corn have been published. As a multiplicity of rules tend to confuse, the question arises, why cannot we have one good rule? The reason is obvious. New corn will not measure as many bushels to the foot or Inches as old corn, on account of shrinkage. A crib of corn measured in the fall will not yield as many bushels to the cubic foot as when measured in the spring or summer .-Corn in wagon, when first put in, will not measure as much to the foot as when hauled several miles. Hence the necessity of working by different rules under different circumstances. All rules are based upon the number of cubic inches in a bushel of shelled corn which is 3150.4. If all corn shelled out the same, under all circumstances, it would be very easy to have one rule. As near right as any rule I have tried is twelve cubic feet to the barrel for corn in crib in the fall of the year, eleven and a half feet in the spring time and about 11 feet in summer; 12 feet as thrown in wagon in the field and eleven and a quarter hauled four or five miles.

To Fasten Cloth on Wooden Surfaces.

The following is said to be an excellent method of fastening cloth to the top of tables, desks, etc.: Make a mixture of 21 pounds of wheat flour, 2 tablespoonfuls of powdered alum; rub the mixture well in a suitable vessel, with water, to a uniform smooth paste; transfer this to a small kettle over a fire, and stir until the paste is perfectly homogeneous without lumps. As soon as the mass has become so stiff that the stirrer remains upright in it transfer it to another vessel and cover it up so that no skin may form on its surface.

This paste is applied in a very thin layer to the surface of the table; the cloth, or leather, is then laid and pressed upon it, and smoothed with a roller. The ends are cut off after drying. If leather is to be fastened on, this must first be moistened with water. The paste is then applied, and the leather rubbed smooth with a cloth.

How to Treat a Cold.

A correspondent of the Germantown Telegraph says :- When you get chilled all over and away into your bones, and begin to sniffle and almost struggle for your breath, just begin in time and your tribulation need not last very long .-Get some powdered borax and snuff the dry powder up your nostrils. Get your camphor bottle, smell it frequently, pour some on your handkerchief and wipe your nose with it whenever needed. Your nose will not get sore, and you will soon wonder what's become of your cold. Begin this treatment in the forenoon and keep on at intervals until you go to bed, and you will sleep as well as ever you did. I'm just telling you my experience.

We have tride it remedy.—ED. TIMES.]

Proportion of Cream to Milk.

The first fifth portion of milk from the cow contains about one-twentieth part of cream; the second fifth, onetwelfth; the last fifth, one sixth. How important then to be careful to get the last and richest drop, even if it were not true that cows are quickly dried up by a slovenly practice of leaving a small portion in the udder. Cows will continue to give a flow of milk at a much longer period when milked dry. Farmers, it will be seen, receive a double benefit by such a course. First, there is more cream in the milk, and second, the flow will continue much longer; two requisites in all dairy countries.

To clean a mica in your stove take a little vinegar and water and wash the mica carefully with a soft cloth; the acid removes all stains, and if a little pains is taken to clean the corners and to wipe them dry the mica will look as good as new. If the stove is very hot tie the cloth to a stick and so escape the danger of burning your hand.

Dust is more injurious to plants than many suppose. Those who grow plants in their houses should with a sponge wipe off the leaves of all smoothleaved plants. Others should be set in a tub or in a sink, and watered with a fine rose watering pot. When dusting rooms in which flowers are kept cover the plants with paper.

How She Saved Money.

"For nearly six years my daughter was most of the time on a sick bed from women. We had used up our savings on doctors and prescriptions without any benefit. Our dominie advised us to try Parker's Ginger Tonic, and four bottles effected a marvelous cure. As it has been our only medicine since, and a dollar's worth has kept our family well over a year, and have been able to lay by a little money again for a rainy day." A Poor Man's Wife.

KENDALL'S SPAVIN CURE!

THE MOST SUCCESSFUL REMEDY EVER discovered, as it is certain in its effects and does not blister. Read Proof Below.

From Rev. N. P. Granger, Presiding Elder of the St. Albans District.

St. Albans, Vt., Jan. 20th, 1880. St. Albans, Vt., Jan. 20th, 1880.

DR. J. B. KENDALL & CO., Gents: — In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by Spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ring bone was forming. I procured a bottle of Kendall's Soavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours.

1. N. GRANGER.

Perseverance Will Tell!

Perseverance Will Tell!

Stoughton, Mass., March 16m, 1880.
B. J. Kendall & Co., Gents:—in justice to you and myself. I think I ought te let you know that I have removed TWO BONE SPAVINS with Kendall's Spavin Cure," one very large one; don't know how long the Spavin had been there. I have owned the horse eight months. It took me four months to take the large one off, and two months for the small one. I have used 10 bottles. The horse is cottrely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me its sale will be very great.

Is sure in effects, mild in its action as it does not blister, and yet is penefrating and powerful to reach any deep seated pain or to remove, any bony growth or any other enlargement, if used for several days, such as spavins, splints, curbs, callous, sprains, swellings, any lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment for man or beast. It is now known to be the best liniment for man or rever used, acting mild and yet certain in its effects. It is used full strength with perfect safety at all scasons of the year.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No

year.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success, to our knowledge, for beast as well as man. Price \$1. per bottle, or Six bottles for \$8. All Druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors.

DR. B. J. KENDALL & CO.,

Enosburg Falls, Vermont,

"Kendail's Spavin Cure" is now sold by all the leading wholesale druggists and a large number of prominent retail druggists.
