

Peter Lemen's Lizard.

The Detroit News of the 10th inst., says Peter Lemen's lizard is not dead after all. A News reporter who called this afternoon found that the old man was very ill, and had been confined to his bed for several days. On Monday afternoon G. W. Hoop-

The articles published in the News about Lemen's lizard have been copied in other papers and spread broadcast all over the United States. When the scribe called yesterday he was shown about forty letters and postal cards already received, and others are coming daily from every direction. One man in Chatham, Ont., advised Lemen to go without drinking as long as possible, and then hold his head over a tub of water while somebody else made a great splashing in the water with his hand, when the lizard would probably "smell the water" and come out.

A person at 40 Lafayette avenue advised him to eat salt fish several days and then drink a glass of stagnant water.

A party at 233 Third street advised him to fast as long as possible, then inhale the steam from boiling milk, which would cause the lizard to come out.

A man at Seaforth, Ont., advised him to fast several days and then be rolled on a barrel.

A letter from Atlanta, Ga., advised him to eat salt and go without drinking as long as possible and then hold his head over a bucket while another party poured water into it, when the lizard, hearing the noise, would come out for a drink.

A party at Bowling Green, O., advised him to eat nothing until he was nearly famished and then "have a good hot meal cooked and hold your head over it so that the lizard can smell the victuals, when he will come out."

A letter from South Bend, Ind., advised hypodermic injections of carbolic acid.

A letter from 824 Twelfth street advised him to go without drinking as long as possible and then drink a lot of warm water.

A Philadelphia druggist advised him to take half a drachm of chloroform, and said if that did not kill the lizard nothing would.

A letter from Sturgis, Mich., advised him to drink brandy.

A letter from Toledo, Ohio, referred him to Mrs. Fred. Kennan, of Grand Rapids, Ohio, who had been cured of a lizard.

There were many letters advising the "milk cure." Others advised him to take turpentine and castor oil. There was a letter from Dayton, Ohio, written in German, and a letter from Chicago in French. Nearly all advised the use of salt in connection with other remedies.

Facts for those who Pay Rents.

The courts at one time were disposed to construe the law as between tenants and owners in favor of the latter, but recently their decisions have been much more liberal to the tenant. Once it was understood that whatever improvement was added to a property by a tenant could not be removed. There has been a decided modification of decision on this subject of late. As a general rule, whatever a tenant puts into a dwelling or erects on the premises for his own comfort, without the intention to permanently annex it, he may remove at any time before the expiration of his lease.— This would include such things as cupboards, shelves, coal bins, and even a stairway has been held to be within the rule.— All trade fixtures and temporary structures, whether frame or brick, and without regard to their size, may be taken down and carried off by the tenant who erected them. Even a dwelling house is not a part of the realty if the right to remove it is reserved. All the landlord can legitimately demand is to have his property restored to his possession in as good order as it was received by the tenant, ordinary wear and tear excepted. Whatever the tenant puts in of a movable nature he may take away, but his carpenter work must not injure or permanently alter the property. All the decisions concur that these removals of improvements and fixtures must be made within the term of the lease. If the tenant waits until his lease has expired the land and all that is on it except the purely personal property of the tenant reverts to landlord.

GREEN BAY, Wis., May 9. — A freight train on the Green Bay and Minnesota road, consisting of an engine and ten cars, went through a burning bridge between Elm Lake and Dexterville stations yesterday morning. The bridge was on fire in the two centre spans, and the fact was not noticed until the train was upon and fairly crashing through the bridge. The cars were piled upon the locomotive, and taking fire, were consumed, with all their contents. The engineer, Anton Seams, was badly hurt, though it is thought not fatally. The fireman was slightly injured. The bridge was fired by an incendiary. Total damage estimated at \$50,000.
