The budding of peach trees is best deferred until August, and is always adopted instead of grafting, which is not recommended for this fruit.

Rice Pudding.

The rice pudding is beyond comparison the best ever made, in spite of the fact that it is the cheapest. The secret of its perfection is in the long cooking it gets. For a six o'clock dinner the rice and milk should be put on the stove early in the afternoon. The best thing to cook it in is a double kettle. Add to a quart of milk two heaping tablespoonfuls of rice. Let it simmer on the back of the stove-it must never boil-until a couple of hours before dinner. It will then be a thick creamy substance. Then salt and sweeten to taste, put it into a pudding-dish and bake in a moderate oven until it is of a jelly-like thickness and the top is slightly browned. It can be eaten either hot or cold. If the latter is prefered, the pudding may be made the day before if that is most convenient. If desired, a flavoring may be added. This is emphatically the perfect pudding of its kind.

Care of Horses Feet.

An old man who has had much experience in handling and dealing in horses for more than half a century, said recently that he had never known a horse to get "lender-footed," that was kept loose in shed and yard, or in a box stall; that turning round, and round treading with their forward feet in the manure kept them constantly moist and manufe kept them constantly most and soft. His theory seemed pt fectly reason-able to me. "I have no box stalls, but I use shavings for bedding, and every morning with a large shovel I move the wet shavings from under the horse's front feet, and the last thing at night cover these with dry shavings for him to lie on.³⁷ He also remarked that he had never known a flat-footed horse but what was a great worker."

St. Albans, Vt., Jan. 20th, 1880. DR. J. R. KENDALL & CO., Gents: — In rep'y to your letter I will say that my experience with Kendall's Spavin Cure has been vory satisfactory indeed. Three or four jears ago 1 procured a bot-tle of your agent and with it, cured a horse of lameness caused by Spavin. Last season my horse became very lame and I turned him out for a few weeks when he bocame better, but when 1 put him on the road he grew worse, when I dis-covered that a ring bene was forming. I procured a bottle of Kendall's Stavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bound be found. Respectfully yours. P. N. GHANGER.
