Farmers should remember that they have no right to dump stones on the highway without permission from the supervisor. Stone piles in several instances have caused damages which those farmers could be compelled to pay.

Rev. J. H. Laughlin, of Newville, preached very acceptably in the Pres-byterian church in this place on Sunday. His wife also gave the congregation a musical treat, as she is a sweet singer, and her voice is well cultivated.

Elderberries are not so named because they are older than other berries.— They derived their name from the fact that an elder of the church first discovered their color by sitting down on a bunch of them at a picnic.

We are sorry to have to record the death of Mrs. Maggie Smith wife of W. H. Smith, of this borough. She has long been ill with consumption and her death though an affliction for her backend is a rain to her. husband is a gain to her.

The People's Bank of Newport, make a good showing. At their annual meet-ing on Aug. 18th, their Directors declared a dividend of eight per cent. There are few city banks that can equal this for a prosperous business, and it speaks welf for the President and Cashler.

The Carlisle Council has passed an ordinance forbidding trains to move at a speed greater than four miles an hour through that ancient borough. It must be a slow old town that thinks such a snail's speed neccessary in order that people may get out of the way.

A shocking accident occurred Wednesday afternoon on Mr. Shinner's farm near Chambersburg. A man by the name of Jacob L. Snyder, who lives on the Warm Springs road, while helping to thresh had his arm caught in the cylinder of the separator and terribly maugled, being partly torn from the socket.

Mr. Benj. Baltozer and wife, were thrown out of their carriage and somewhat burt, near Clemson's crossing, above Newport, on Thursday last.—The cause of the accident was the horse frightened at the cars. The animal broke loose from the vehicle after the upset, and ran to Newport, where he was captured. While running away he ran into the sewing machine wagon of Mr. Le Dane, but not doing it much interest.

The Wormy Bass .- The Miltonian says: On Monday last Mr. Charles E. Bogle, of this place, after a fishing trip, on which he caught more than twenty pounds of bass, besides a great number of other fish, made an examination in the presence of quite a number of witnesses, and found that all the bass he caught were alive with worms. In size they are as large as a grain of wheat and in shape like a fish bladder. They are plainly to be seen by the naked eye imbedded in all the fleshy parts of the fish, but by the aid of a glass, such as the examination was made with, they are a disgusting thing to look at.

A Runaway Horse takes a Bath .- On Tuesday a boy by the name of Hunter was driving liveryman Ward's horse attached to a cart loaded with store goods, for Mr. Henry Hopple, at Millerstown, and in descending the hill leading from the station the animal ran off. It ran on to the flat used in ferrying teams across the river and coming to the end of the boat plunged into the water, swimming a number of yards with the cart and load hanging on behind. Men in boats went to the animal's rescue just in time to help it ashore and save its life. Among the goods on the cart were fish, canned fruit, sugar and soap. The last named article floated away and was not recovered. The other goods were somewhat damaged also,-News.

A Negro Woman Turning White .- A remarkable case of change of color of a negro woman from jet black to a fair white has been progressing gradually in Shippensburg for several months past. The negro woman's name is Kitridowt She is married and has several negro children, and is about 40 years of age. The color of the skin was first observed to become white on the edge of the face, and from that time till the present the white has been gradually crowding the black off the face of the woman. The interest of the stranger is at once attracted by the patch of black skin two inches square yet remaining around the mouth and nose, while the greater portion of the surface of the face is white. The white is not the color of the Caucasian race, but most persons, when the work of transformation is completed, will take the woman for a sallow-complexioned dyspeptic, and there are a great many white women who are of a darker complexion than the woman Kitridowt, What is most wonderful about the transformation is that the dark skin does not peel or sluff off, but simply the color of the skin changes. She was originally of a very dark hue, and her hair remains wooly and full of kinks .-Carlisle Herald.

We doubt whether there is any place in Pennsylvania as dry as it is in the Upper Mifflin and a part of Hopewell townships. There has been no rain there since the 9th of July to amount to anything and the result is a failure in the corn crop. Some fields will yield but two barrels to the acre.

John Stoner had a narrow escape from death on Saturday. He was digging a a well about thirty feet back where they were blasting rocks in Shapley's cellar. On Monday last while John Harlin of Newville, was cutting logs at the steam saw mill on the McCachran farm, his axe struck a log that had rolled up to him unnoticed, and the axe glanced off striking the top of his foot, cutting it open about four inches in length.
