The anxiety to get the latest Washington news, has been very great for the past two months. This anxiety has been gratified by the telegraph office here hanging out a copy of the bulletins as received. For these bulletins the Bloomfield office has been indebted to Miss Light, manager of the Newport office.

On Monday of last week, Jos. Fiester while working at Ensminger's clearing, in Centre twp., had his leg badly hurt by one of the mules making a sudden jump and drawing the sled up on to Flester's ankle. The mule at the same time got a terrible cut just above the pastern joint. It was all done so quick that what cut the mule and caused him to jump could not be found out.

On Friday evening last, Mr. Kilpatrick, resident in Penn township was talking with friends in apparent good health, when in walking across the floor he dropped as suddenly as though knock-ed down with a sledge hammer. He was picked up for dead, and physicians were sent for who soon restored him to con-sciousness, but up to this time, his recov-ery is a matter of doubt as he is yet lying very iil. The doctors say it was an epi-lentical attack. leptical attack.

M. The committee will consist of Prof. David Wilson, of Juniata County, Prof. Silas Wright, of Perry Co., and a third member to be selected bereafter. hereafter.

The examination is open to all competitors from the District, who have reached the age of fifteen years and are of good character. This scholarship is a prize not difficult to obtain and worthy the ambition of any young man seeking

nn education.

CHAS. H. SMILEY.

New Bloomfield, Aug, 29th, 1881.

[Other papers in the District please copy.]

You Are Invited to be present at the regular annual clearing of the old grave vard in this borough, on SATURDAY NEXT, (Sept. Srd). Gates will be open at 8 A. M. There is a large amount of work to be done. Heretofore the work has devolved on a few. Let there be a general turnout this time.

Kicked by a Horse,-On Wednesday last a little daughter of Mr. W. S. Blain, residing near Markleville was severely injured by a kick from a horse, which she was driving to pasture. The animal hit her in the face fracturing her jaw bone crushing out several teeth, and badly lacerating the flesh in several places. Doctors Shull and Orris, attended to her injuries, and the child is doing as well as could be expected.

Crushed Limestone.-Mr. Henry D. Kinsel, a farmer living about one-half mile east of Myerstown, has started a new industry which, if it should prove successful, will lessen the burning and using of lime for fertilizing purposes .-He has procured a machine to crush limestone as fine as flour. This, it is claimed, if sowed on land will enrich the soil to a greater extent than phosphate or lime. Quite a number of farmers have given orders for 500 to 1,000 pounds, which they will use on the land prepared for sowing wheat this fall. Mr. Kintzel claims that where his powdered limestone has been used thirty-five bushels of wheat have been grown to the acre.

The Other Side.-Several weeks since we copied from a Juniata county paper an account of an affray between a man named Coder and John McNemar, in which it was made to appear that Coder was the innocent party. It seems that the dispute arose about the payment of a bill due Mr. Mc. and that Coder and his wife both attacked Mr. Mc. assaulting him with a club, in doing which Coder broke Mr. Mc's. arm which he had raised to ward a blow from his head. It was then that Mr. McNemar struck the blow that wounded Coder .-Each party had the other arrested, and the next court will probably say who is to blame. We give this side of the case in justice to John McNemar who is well known to our citizens.

Spring Township seems to be rich in all kinds of minerals. Besides the iron ore that has been found, Mr. Frank Gibson is turning out a yellow-ochre, that is finer and better than any we have had from the eastern market. He has now found a large quantity of stone that seems to be sulphate of lime. It is smooth and fine when crushed and crushes easily. To the taste, it is sharp like lime juice. He is going to grind and have it tried as a fertilizer, and there is no doubt that it will then be of more value to the land than lime, which loses nearly fifty per cent. of its value in burning. Some samples of this stone have been left with us. He has also found quite a vein of stone, that as a whet-stone is equal to the Arkansas oil stone, as it cuts fast and leaves a smooth keen edge. We have tried it and were surprised at its action.

A Curlous Incident .- On Wednesday last as Jacob Killian, West of town, was at work near the pond on the farm, he noticed one of the ducks of a flock making a curious noise. He was inclined to let the duck alone until his little daughter called his attention to the fact that a snake was colled around the duck's neck, the duck at the same time was making frantic efforts to rid itself of the strange

Intruder. Mr. Killian pursued the duck which ran back and forwards through the fence, the snake all the time clinging to its intended victim. At last by the ald of his oldest son a stick was placed on that part of the snake down, but it refused to release its hold until out in two. The snake was a strange species not more than twenty inches in length, and was tied almost in a knot. Mr. Killian is of the opinion that the duck in the first place had selzed the snake and in its efforts to get loose coiled itself tightly around the neck .- Newville Star.

Accident at Mandaville .- Sunday afternoon while two brothers, Amos and William Rauch, of Derry Station, were driving home from Mandaville, this county, they met with an accident which fortunately for them resulted only in the death of the horse. Just as they had crossed the canal bridge at Mandaville, the horse took fright at a chicken in the road and sprang down over a ten feet wall, dragging the buggy and its occupants with him. The buggy landed on top of the horse, with the Rauch brothers sandwiched between them. A few slight bruises to the men were the extent of their lujuries. The buggy top was utterly demolished, and the horse broke his right hind leg in two places. The Messrs. Rauch shot the poor brute, killing him, thus putting him out of his misery. The horse was a very promising three year old and was held at a good figure by his owners. The escape from death of the two brothers was almost miraculous .- Patriot.

Poison Candy .- On Monday evening a nine year old sou of Mr. John C. Nutt, residing on Filbert street, became very sick at his stomach and vomited repeatedly after retiring. His father to ascertain the cause of his sickness, examined his pockets, thinking perhaps he had been chewing tobacco. He found a number of small mint drops. The boy said he had purchased them at C. Benitz's store at Short and Walnut streets, and had eaten one. Mr. Nutt ate several himself and shortly became so ill that the attendance of a physician was necessary. The medical man after examining into the cases came to the conclusion that the father and son had been poisoned by arsenic in the coloring used in the mint drops. Prompt remedies restored both the patients. Some of the candy was saved and will be submitted to a chemical analysis .- Patriot.

A Black Squirrel.-The Gettysburg Sentinel says : Benjamin Squirrel, a colored man aged 80 years, died at Westminster, Md., with insurances on his life to the amount of \$200,000, held by various parties in Pennsylvania companies. It is said the old man got from \$5 to \$10 for signing applications, and felt rich in his declining years.

Cumberland County .- We copy the following from the Cumberland papers of last week:

[From the Newville Star.]

It is said on account of freight discrimination coal is made to sell at a higher price at Newville than any place along the line. We are told it is one dollar per ton in Chambersburg than here. This should not be thus.

On Wednesday of last week, while Mr. Samuel Byers and his men were working at the gable of the school house at Centre, on a scaffold, it gave way, letting Messrs. Coleman and Kyle down to the ground in a very abrupt manner. Mr. Byers had just gone down the scaffold to get a piece of lumber when the accident occurred. Upon an examination, both were found to more or less hurt.

[From the Shippensburg News.] We much regret to learn that the flour and grist mill, belonging to Philip Herr was destroyed by fire on Friday morning about four o clock. We are without any particulars as to the origin of the fire. This mill was located a short distance south of Orrstown, and was formally owned by John Gish of this Borough. Philip Herr purchased it from William Nickles, and it was of one the best flour mills in Franklin County. We will be able to give particulars next We will be able to give particulars next

Juniata County .- We copy the following from the Juniata county papers of last week :

Early on Monday morning of this week Wilbur Underwood, aged about 15 years, son of Mr. John Underwood of this place, while on his way home by way of the railroad from Tuscarora station, where he had spent the night with his brother John, who is the telegraph operator at that point, was struck by an engine eastward bound a short distance below the iron bridge that spans Tuscarora Creek, knocking him insensible and inflicting severe injuries on his head and bruising his body somewhat. He was conveyed to the home of his parents and soon thereafter restored to consciousness. [ From the Port Royal Times ]

[From The Democrat and Register.] Snakes are numerous on Third street, are seen every day. Miss Kirk killed one recently at her mother's home, and Dr. Rodgers killed one on Friday which was attempting to get into Mr. Jackson's house. One makes its place of abode under Mr. Hess' front porch and has not yet been captured.

The young wife of Francis Dudley, residing at St. Cloud, West Orange lownship, committed suicide on Saturday afternoon by shooting herself in the head with a pistol while laboring under a fit of temporary insanity. She was only twenty years, of age, and had been married a little more than a year.
