HOUSE, FARM AND GARDEN.

A Cow's Cud.

The situation, the structure, and the size of the rumen or paunch, point it out as the first and general receptacle for the food, which receives in the mouth only sufficient mastication to enable the animal to swallow it.

Koumiss—A Summer Drink and How to Make it.

Into one quart of new milk put one gill of fresh buttermilk and three or four lumps of white sugar. Mix well and see that the sugar dissolves. Put in a warm place to stand ten hours, when it will be thick.

Female Farmers.

We see the following in the Vermont Watchman: France has agricultural schools for girls. One of the chief is near Rouen, which is said to have begun with a capital of one franc by a sister of charity and two little discharged prisoner girls, and to be now worth \$160,000.

It is said that the presence of glucose in sugar can be detected in this way: Take a handful of the mixture and drop it into a glass of cold water. Stir it a few minutes, and you will notice that the cane sugar is entirely dissolved, leaving the grape sugar undissolved at the bottom of the glass.

KALAMAZOO, Mich., Feb. 2, 1881. I know Hop Bitters will bear recommendation honestly. All who use them confer upon them the highest encomiums, and give them credit for making cures.

Always stand a wet umbrella with the handle down. One trial will convince you of the rapidity with which it will drain, and your umbrella will last longer if dried quickly.

"The Domestic Tyrant."

"The average man" quoth Mrs. Partridge "is a weak and irritable domestic tyrant," and Mrs. P. is correct. Tyrannical to a fault the average man will enter the blissful Paradise of a happy home, scratch himself in fiendish glee, and send the baby into convulsions, and for what? Why, because he has the Itching Piles, and is too mean to buy Swayne's Ointment, which is an infallible cure for the worst cases of that annoying complaint.
