

The Bloomfield Times.

HOUSE, FARM AND GARDEN.

Horse Talk.

In all cases where the shoulders of a horse have been chafed raw several times and the skin is very thin and tender, it is best to always use a large, full canvas collar.

It is a lamentable fact that much of the machinery used on the farm bears very heavily on the horses necks. When working such machinery a broad, soft cushion should be placed under the top of the collar, the straps being lengthened out to admit it.

In cases where the neck or shoulders have become swollen, nothing but rest will effect a cure. A simple lotion may aid nature somewhat, but the farmer had better not place much confidence in the many liniments and "cure-alls" so extensively advertised.

Cabinet Pudding.

Use either stale bread or cake, or part of either, grease the mould good, using a mould with a lid, because the pudding must be boiled: place in the bottom of the mould some citron or angelica, and then a layer of bread or cake, cut up into small pieces, adding a few raisins for flavor: then add the raisins to each layer of an inch thick until the mould is filled.

The sauce for the pudding is made by taking half a cupful of butter and one cupful of powdered sugar. Beat the butter first to a cream for a cake, adding a little at a time, the sugar, the white of an egg, beating the white until it is light; afterward add the white of another egg, and beat with an egg beater; a half pint of boiling water is next placed in the sauce, turn the whole into a farina boiler, and put over a fire for two minutes, stirring it the while, when it boils, add the juice of one lemon or a teaspoonful of vanilla. Do not let it stand long before using. This makes a rich sauce.

Seed Corn.

In a recent address on the subject of corn, Prof. Beal remarked that the top-most ear was best for seed. Of two fields one planted with seed taken at random, and the other selected in the field, the latter yielded as much again as the former. Manure and cultivation may be thrown away on poor seed. The best time to cultivate corn is before planting. A shallow cultivation was recommended. Twenty-three ears of corn can be produced from one kernel—by proper cultivation and the use of the best seed, as high as twenty-five ears. Smut is a great damage to corn, and smutty corn is very injurious to cattle.

Mrs. Case's Spanish Cream.

Set a pint of milk and a fourth of a box of gelatine, in a dish, into a kettle of hot water. Stir it frequently while the gelatine dissolves. Beat the yolks of three eggs and a cupful of sugar together; and when the milk is hot and the water boils stir in the mixture, and set back the kettle, and keep stirring until the water boils again. Set your dish on the table, and stir in the whites of the eggs beaten to a stiff froth; then pour it at once into your mould to cool. Serve cold as a dessert for dinner, or at your tea-table. This is nice.

How to Roast Meat.

When meats are put in to roast have no water in the pan. When they begin to brown it is time enough for the water.

Big Results From Little Causes.

"Do you know?" remarked a man to his friend on Chestnut Street, a day or two since, "I believe both Conklin and Platt had a bad case of skin disease when they resigned!" "What makes you think so?" inquired the listener in astonishment. "Well, you see they acted in such an eruptive manner—so rashly as it were. Save? Oh! yes, I save," replied the other, "they were boiling over and merely resigned to humor themselves, I suppose." If such be the case, the National difficulty might have been averted by applying Swayne's Ointment for skin diseases.

Women that have been given up by their dearest friends as beyond help, have been permanently cured by the use of Lydia E. Pinkham's Vegetable Compound. It is a positive cure for all female complaints. Send to Mrs. Lydia E. Pinkham, 223 Western Avenue, Lynn, Mass., for pamphlets.
