Of course, though we have a good judge he can hold only one day's court on Monday, but on Tuesday he'll manage to hold another day's court, and so on each day till the business the lawyers have ready is disposed of. ready, is disposed of.

An old criminal was once asked what was the first step that led to his ruin, when he answered: "The first step was when he answered: "The first step was cheating a printer out of two years' sub-scription—when I had done that the devil get such a grip on me that I could never shake him off."

The Circulars put out by Judge Junkin, giving a statement of cases &c., tried in the past thirty years, was put out as we understand it, to show the great increase in litigation, and not to disparage Judge Graham whose abilty as a jurist no one can deny.

The reply to it by his son showing the increased cost of courts during the last ten years, conceals one very important fact, that Mr. Graham could have been ignorant of, and that is, that fees of jurors HAVE BEEN RAISED from \$1 to \$1.50 per day in 1864, and again for Perry and Juniata counties to \$2 per day by the act of 1873. His statement would have been fairer if he had stated these facts, as the fees of jurors is a very important item in the costs of courts.

Don't allow Their Passengers Swindled. -The other day while Conductor Erhart, of the Pennsylvania railroad, was going through the train to Altoona he met a party of emigrants who were in a state of great excitement. One of them by signs and the little bit of English he knew, managed to tell the story that at Harrisburg he had purchased a cup of milk from a vender who had went through the car and in payment had handed out a ten dollar gold piece. The milk vender returned him but \$3.65 in change. After the train had started they put their foreign minds to work at calculating how much change they should have received with milk at ten cents a cup, and then discovered that a swindle had been played. When the train stopped Conductor Erhart stepped into the telegraph office and sent by wire a statement of the case to Superintendent Carter at Harrisburg. The latter had the matter inquired into and the milk vender, a young man named Edwards, was ordered to hand over \$6.25, which he did without a quibble, and before the train reached Altoona, Conductor Erhart received a message empowering him to pay that sum over to the emigrant. The foreigners were loud in their praise of the promptness of all concerned.

The occupants of the buggy seeing that they were unable to stop the horse in his mad plight, jumped out. The horse ran to the basin bridge and into the water, carrying the buggy with him, where he was caught and immediately unhitched from the buggy to save him from drowning, as there is some five or six feet of water at the place where he went in. The only damage done worth speaking of was the breaking of the buggy.

The coat, however, most generally worn is the S. B. Walking Coat, both skirt and waist being of medium length, and the coat being rather close fitting all over and buttoning high. If designed fondressy wear, the coat buttons with one button. If for business wear, a four-button coat is generally preferred, with false flaps on the side.
