

Singular Law Points and Decisions.

A Mass. judge recently decided that the ringing of a church bell at five o'clock in the morning is a public nuisance, and if people must worship at that hour, they should do so without disturbing their neighbors.

A singular law point has been raised in Switzerland by one of the recent land slides. A whole tract of wood slipped down a hillside and spread over some meadows, the movement being so uniform that the trees were not uprooted or even injured.

A novel scene occurred in court on Staten Island a few days ago. A burly colored man was arraigned on a charge of assault and battery committed against a colored woman. The jury considered the woman the aggressor, and, not content with acquitting the prisoner, undertook through their foreman to soundly reprimand the Justice for entertaining such cases.

The following singular case was recently decided in the California courts: Nicholas Sepulveda and Francisco Salazar were jointly indicted for the crime of grand larceny, and tried together in Santa Clara Co. Court. The jury rendered a verdict in these words: "We the jury, find the defendants, guilty as charged in the indictment."

Upon appeal to the Supreme Court by Sepulveda, it was determined that the record of the clerk must be taken as the verdict rendered. And as there were two defendants on trial, a verdict finding the defendant guilty, without specifying which was void for uncertainty. A motion was then made in the Superior Court, upon the part of Sepulveda that he be discharged upon the grounds, first, that as he was in jeopardy by the former trial, and the discharge of the jury was unauthorized and illegal, he was released thereby; second, that by the verdict and the construction of it by the Supreme Court, one of the defendants was acquitted, and as it could not be made to appear which was acquitted, either was entitled to the benefit of the presumption of acquittal.

One Experience from Many.

"I had been sick and miserable so long and caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this condition of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me, they said, 'Hurray for Hop Bitters! long may they prosper, for they have made mother well and us happy.'"—The Mother.—Home Jour. 47-2t

Dangers to Iron Workers.

Messrs. R. Esterbrook & Sons, City Iron Foundry, Boston, Mass., speak on this point as follows: Two or three of our men were badly burnt in working. They were, however, immediately cured by using that valuable remedy, St. Jacobs Oil. All are highly pleased with it, and we shall always recommend it to those afflicted with pain or rheumatism.—Pittsburgh Evening Chronicle.

Successful Moving of a Large Hotel.

At a recent meeting of the Engineers' Club, of Philadelphia, the secretary read a detailed description of the moving of the Hotel Pelham, at Tremont, and Boylston streets Boston, for the purpose of widening Tremont st. This hotel is built of freestone and brick, 96ft. deep and 69 feet frontage. The Boylston street wall is supported on eight granite columns 12 feet high, 3 and 4 feet square. There is a basement and seven stories above the sidewalk. Height above tramways on which it was moved, 96 feet. Weight, 5,000 tons, exclusive of furniture, which was not disturbed during removal, as also were not the occupants of the stores on first floor and some of the rooms, the various pipe connections being kept up with flexible tubes. Careful experiments with models showed that if the lower part of the building was firmly braced, there was no danger of shifting in the parts above. The general arrangements consisted of heavy and substantial stone and brick foundation for iron rails and rollers, and the building was forced to its new position by 56 screws, 2 inches diameter, half inch pitch, operated by hand against timbers arranged to uniformly distribute the pressure against the building. Much care and ingenuity was displayed in the details of the arrangements and work. Two months and twenty days were occupied in the preparation. The moving itself was begun on August 21, and finished on Aug. 25, but the actual time of moving was but 13 hours and 40 minutes. The greatest speed was 2 inches in four minutes. The hotel moved about one-eighth of an inch at each quarter turn of the screws. The

whole distance moved was 13 feet and 10 inches. Four thousand three hundred and fifty-one days' labor was required for the work. The whole cost was about \$30,000. This is the largest building that has ever been removed, although larger have been raised, which latter is a much simpler and less risky operation. The complete success of this undertaking is shown by the fact that cracks which existed in the walls prior to removal were not changed by the operation. Paper was pasted over them before commencing, that any change might be seen.—Scientific American.

SWAYNE'S OINTMENT. AN UNFAILING REMEDY FOR ALL SKIN DISEASES. ITCHING SORES, PIMPLES, ERYSIPELAS, RING WORM, &c. THE GREAT CURE FOR ITCHING PILES.

Address, Dr. SWAYNE & SON, Phila., Pa. September 20, 1881—ly 461m

Back Ache POSITIVELY CURED BY Benson's Caprine Porous Plasters.

Reasons Why they are Preferred to All Other Porous Plasters or External Remedies: First. Because they possess all the merit of the strengthening porous plaster, and contain in addition thereto the newly discovered powerful and active vegetable combination which acts with increased rubefacient, stimulating, sedative and counter irritant effects. Second. Because they are a genuine pharmaceutical preparation, and so recognized by the profession. Third. Because they are the only plasters that relieve pain at once. Fourth. Because they will positively cure diseases which other remedies will not even relieve. Fifth. Because over 6000 physicians and druggists have voluntarily testified that they are superior to all other plasters or medicines for external use. Sixth. Because the manufacturers have received the only medals ever given for porous plasters.

Benson's Caprine Porous Plaster! SEABURY & JOHNSON, Manufacturing Chemists, New York. A SURE REMEDY AT LAST. Price 50cts. A HEAD'S MEDICATED CORN and BUNION PLASTER.

The Purest and Best Medicine ever Made. A combination of Hops, Buchu, Mann-drink and Dandelion, with all the best and most active ingredients of all other Bitters, makes the greatest Blood Purifier, Liver Regulator, and Life and Health Restoring Agent on earth. No disease or ailment so persistently long and perfect where Hop Bitters are used, so various and in their operations.

Apply to JOHN BESSLER, Donnelly's Mills, Perry Co., Pa. Sep. 6, 1881.

THE SUN.

NEW YORK, 1882. THE SUN for 1882 will make its fifteenth annual revolution under the present management, shining, as always, for all, big and little, mean and gracious, contented and unhappy, Republican and Democratic, saved and virtuous, A. S. T. and obituary. The SUN's light is for mankind and womanhood of every sort; but its genial warmth is for the good, while it pours hot discomfort on the blistering backs of the persistently wicked.

THE SUN of 1882 was a newspaper of a new kind. It discarded many of the forms, and a multitude of the superfluous words and phrases of ancient journalism. It undertook to report in a fresh, succinct, unconventional way all the news of the world, omitting no event of human interest, and commenting upon affairs with the fearlessness of absolute independence. The success of this experiment was the success of THE SUN. It effected a permanent change in the style of American newspapers. Every important journal established in this country in the dozen years past has been modelled after THE SUN. Every important journal already existing has been modified and bettered by the force of THE SUN's example.

THE SUN of 1882 will be the same outspoken, truth-telling, and interesting newspaper. By a liberal use of the means which an abundant prosperity affords, we shall make it better than ever before. We shall print all the news, putting it into readable shape, and measuring its importance, not by the traditional yardstick, but by its real interest to the people. Distance from Printing House Square is not the first consideration with THE SUN. Whenever anything happens worth reporting we get the particulars, whether it happens in Brooklyn or in Bokhara.

In politics we have decided opinions; and are accustomed to express them in language that can be understood. We say what we think about men and events. That habit is the only secret of THE SUN's political course.

THE WEEKLY SUN gathers into eight pages the best matter of the seven daily issues. An Agricultural Department of unequalled merit, full market reports, and a liberal proportion of literary, scientific, and domestic intelligence complete THE WEEKLY SUN, and make it the best newspaper for the farmer's household that was ever printed.

Who does not know and read and like THE SUNDAY SUN, each number of which is a Golconda of interesting literature, with the best poetry of the day, prose every line worth reading, news, humor—matter enough to fill a good-sized book, and infinitely more varied and entertaining than any book big or little? If your idea of what a newspaper should be pleases you, send for THE SUN.

Our terms are as follows: For the daily SUN, a four-page sheet of twenty-eight columns, the price by mail, post paid, is 53 cents a month, or \$6.30 a year, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 55 cents per month, or \$7.70 a year, postage paid.

The Sunday edition of THE SUN is also furnished separately at \$1.20 a year, postage paid.

The price of the WEEKLY SUN, eight pages, fifty-six columns, is \$1 a year, postage paid. For clubs of ten sending \$10 we will send an extra copy free. Address

L. W. ENGLAND, Publisher of THE SUN, New York City.

Hydraulic Cement Pipe Works

Patent Artificial Stone DRAIN, SEWER, WELL AND CULVERT PIPES. From 4 to 30 inches in diameter. The Strongest and Most Durable Pipe in the Market. Is easier laid, will never rust, forms a smoother and more perfect joint than any other pipe. Unaffected by Frosts and Acids. Does not depend on a thin glazing for strength or durability as terra cotta ware or other clay pipes do. Made from Rosendale cement and circulars harder year by year, until it becomes veritable stone. No trouble with roots of trees. No undermining by rats. No blisters or prickly points inside to retard the flow of sewerage. Price lists and circulars furnished on application.
