Safe Blowed Open.-The following account of the robbery of Minick's safe we copy from the Ledger :

Thursday night, or rather Friday morning early, W. H. Minick and his family were awakened from their slumbers by a loud explosion in the first story of their residence. Mr. Minick at once got up and went down stairs only to find his office full of smoke, which soon cleared away, when he found the outer casing of his safe door was blown off, but the heavy lining still remained in its place. The burglars were evidently frightened off by Mr. Minick before they succeeded in reaching the contents of the frightened off by Mr. Minick before they succeeded in reaching the contents of the safe. Entrance was gained to the house by way of a front window, the fastenings of which were forced. Once in the thieves went about their work deliberately, even to fastening cloths over the windows to prevent their being seen from the outside. A lunch which had been prepared for Mr. Minick, who intended taking the early train, was eaten as well as other victuals in the cupboards. A small hole was drilled in the door of the safe and powder and fuse inserted, with which the blowing was done. Every closet, drawer, cupboard, or any thing in which money might be kept, was ransacked, but nothing was taken. Mr. Minick is a broker and has one of the Mosler, Cincinnati, safes in which he keeps his books and papers, very little money is ever kept in it. The tools used by the thieves, were a heavy sledge hammer and a brace and bit, which were taken from White & Hartzell's blacksmith shop. zell's blacksmith shop. A York County Mystery .- On Friday Officer Edward Long received information that human bones had been found at Dempwolf's bone mill, near Cottage Hill College. He notified the District Attorney, and in the afternoon District Attorney Ziegler, Coroner John Ahl and Officer Long proceeded to the mill to investigate the matter. Mr. Dempwolf informed them report was correct, that such bones had been received, and that he had buried them near the mill. The bones were then exhumed, and the box in which they were placed being opened the lower limbs, arms, and in fact nearly the complete skeleton of a man, with a portion of lower jaw with the teeth in it, were revealed. After examining them Dr. Abl pronounced them the bones of a male adult human being, and reinterred until further investigation can be made. Dr. John Wiest, who with the court detective viewed them this morning, also pronounced the bones to be those of a man.

Mr. Dempwolf had purchased the bones, among a number of others, from Brodis, a colored man who gathers rags and bones. It has not transpired from where Brodis procured them, but when they came into his possession they were in a bag.

The finding of the remains is by some connected with the mysterious disappearance of Rudolph Brant, a German laborer, from York, about three years ago, since which time nothing has been heard of him. Brant, who had some money, fell heir just before his disappearance to a sum of money from Germany. A brother, residing in New York, endeavored to find his whereabouts, and corresponded with John W. Heller, Esq., upon the subject, but no information was ever gained. A thorough investigation is now in progress, and the mystery of the bones will probably be revealed in time. - York True Democrat.

The full particu-lars we were not able to gather, but his injuries are reported to be of quite a serious character.

From the Shippensburg Chronicle

Capt. Samuel W. Means met with a serious accident on Monday morning last. He was assisting in removing the scaffolding from the front of the new ware house of the B. & C. V. R. R., at the foot of Railroad street, and while doing so lost his balance and fell to the ground, a distance of about thirteen feet. Mr. Means was riding a young horse, which shied at a locomotive, and was thrown to the ground falling on his was thrown to the ground falling on his head.
