## Lovers, Winners and Losers

The Behrend Matchbox Players are currently putting on a production of *Lovers, Winners and Losers* - a comedy by Brian Friel. The production is divided into two one act plays. The first is a comic love story about a young Irish couple trying to study for their final exams so they can get graduate and get married. The play has a tragic twist, however, as off-stage narration tells the audience early on that the two lovers will die before the day is out. A heart-warming sorrow hushes over the theater as the two characters charm the audience into laughter even though they know the couple will die.

The second play has a more cheerful atmosphere and is about a middle-aged couple trying to get together under the ever watchful eyes of an invalid mother. The action has the audience crying from laughter and is a perfect compliment to the first, more sombre performance.

The production is well worth the cost of admission as you will leave the theater not knowing whether to laugh, cry or both. The plays are being shown throughout the week at the Behrend Matchbox theater under the auspices of director Steve Buckwald. Get your tickets soon for the show is a cinch to sell out.
