the financial situation of the student. It ought to be open to everyone willing to make the sacrifice to reach that milestone."

The building will open new challenges for Pennsylvania's youth, said the governor. Casey said he wants facilities to be the backbone of a new high-technology Pennsylvania.

"We're on the cutting edge," according to the governor. "Over 1,700 high-tech companies are in business across Pennsylvania." He added the state is one of the leading technology states in the nation, having twice the national average of growth in such firms over the last three years.

Dean and Provost John M. Lilley said the check was an indication of educational and economic support for northwestern Pennsylvania. "The new library and academic complex will help to improve the climate for first-rate scholarship

and superb research, fulfilling the needs of our students and faculty."

Lilley said the original appropriated amount was around \$10 million, but a portion of that has already been used for architectural and administrative fees. The 7.7 million dollar check will cover the building itself. Another 1.5 million will come from other sources to cover furniture and other expenses.

**TIME CAN DO FOR YOU  
WHAT BLACK COFFEE CAN'T**

**IT CAN SOBER YOU UP**

The truth is, too much alcohol in your bloodstream means you'll be drunk. Coffee can't remove the alcohol—neither can a cold shower, fresh air, or exercise. Only your own body can do it, and it takes **time**. About an hour for each drink you've had. Other methods may wake you up, but you'll still be drunk. If you overindulge, keep this in mind and give yourself time to recover. Don't rely on ineffective short-cuts. Better yet—
