No more Gorge Gossip

by Irene Taha and Stuart
Michaels
Collision Staff

Behrend you asked for it, and
now you've got it! No more
talking gossip in the Gorge.
Here's your very own column.

It is rumored that the
firestarter and two accomplices
have planned another attack on
Perry Hall. This time the
alleged criminals will instead of
burning papers, use a blow
torch and hand grenades to set
off the alarm. The girls feel
they must undertake extreme
precautions to cover-up the
smell of marijuana, but reveal
that instead of seeking shelter in
the protective study lounge, (?)
they will freely smoke in the
halls and maybe even invite the

coordinators to have a hit!

Unidentifiable sources have
leaked that Delta Phi Epsilon
has asked Trigon for a social. At
this moment in time, no date
has been set. Due to the fact
Trigon has no idea how many
members are actually in it.
Prices for tickets are rumored to
be \$10 for single, \$15 for one
date, and \$25 for two dates. The
theme for the party is called
"Love knows no Gender" and
proper attire is required: a
blindfold, no clothes, and some
sort of round or sharp object.

Check out next week's article
when we gossip about the secret
identities of the wild woman and
accomplices spend a day with
them as they travel causing
havoc on and off campus.
