Thursday, November 11, 1983

Volume XLII, No. 9

## "The Osgood Files" come to WPSE

*Charles Osgood brings his nationally  
broadcast show to Behrend's  
radio station tomorrow*

**"It's absolutely thrilling,"  
WPSE station manager  
Fred Anzivino said.**

***see page 3***

## Paid to play with sand

**"I like experiments that are visual."**

*Although he doesn't use a pail and shovel to build  
sandcastles, Dr. G. William Baxter, assistant professor of  
physics, does experiments dealing with the granulation  
of sand and other grainy substances.*

**"I'm interested in how these materials  
move."**
