

THE NITTANY CUB

Vol. XVIII No. 5

Behrend Campus

November 21, 196

LEARNING CENTER BEGUN

Ground is now being broken for the new Learning Center to be situated on the south east corner of the campus grounds. Lounge and recreation areas, dining and locker rooms for commuters, a 250 person capacity lecture room, music practice rooms, S.G.A. office, newspaper office, two cafeterias which can be converted into a large dining hall, and a temporary library, will all be incorporated into the structure.

This will be a union building comparable in function to the H.U.B. at

Penn State. It's total length will be 240 feet, as compared to 100 feet for the present structure of Erie Hall.

"The Union Building should be the heart of the campus," says Dean Lane. There will be a Union Manager hired to supervise on a full-time basis.

Since the library will no longer occupy the top floor of Turnbull Hall, some classes will be held there. The permanent library will later be built at the west end of the campus.
