It matters not from what cause the disease originated, however long standing or obstinate the case, RECOVERY IS CERTAIN, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has buffled the skill of eminent physicians and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness and free from mercury or balsam. During twenty years of practice, I have rescued from the Jawsof Death many thousands, who, in the last stages of the above-mentioned diseases, had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a perfect and most speedy cure. As a permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fail to cure the diseases but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid Consumption.

But should the disease and the treatment not cance

cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to eatch and rob the unwary sufferers, that millions have their constitutions ruined by the vile compounds of quack dectors, or the equally poisonous nostrums vended as "Patent Medicines." I have carefully analyzed many of the so-culled Patent Medicines, and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury, and a deadly poison, which, instead of curing the disease, disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons who do not understand even the alphabet of the MATERIA MEDICA and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money regardless of consequences.

Irregularities and all diseases of males and femules treated on principles established by twenty years of practice, and sanctioned by thousands of the most remarkable cures. CURABLE BY INHALATION!!!

Remedies to the cavities in the lungs through the sippassages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy, so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by Inhalation, it is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formitable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent, in the second, but in the third stage it is impossible to save more than five per cent, for the lungs are so cut up by the disease as to defy medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful seourge, which annually destroys ninety-five theusand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumption's grave.

This pentrating Ointment, melting under the hand as it is rubbed in, is absorbed through ihe same channels, and, reaching the seat of inflammation, promptly and invariably subdues it, whether located in the kidneys. the liver, the lungs, or any other important organ. It generates the surface to the interior, through the commentate with the skin as summer rain passes into the fevered earth, diffusing its cold and regenerating influence.

Skin Diseases and Glandular Swellings,

The effect of this unrivaled external remedy upon Scrofula, and other virulent ulcers and sores, is almost miraculous. It first discharges the poison which produces suppuration and proud fiesh, and thus the cures which its healing propestics afterward complete are tafe as well as permanent.

In cases of the fracture of the bones, injuries caused by steam explosions, Bruiges, Burns, Scaler, Rieff Mars, Stiffness of the Joints and contraction of the sinews, it is employed and warmly recommended by the faculty. This marvelous remedy has been introduced by its inventor in person into all the leading Hospitals of Europe, and no private household should be without it.

These symptoms if allowed to go on—which this medicine invariably removes—soon follows Loss of Power, Fatuity, and EPILEPTIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—IN-SANITY AND CONSUMPTION? The records of the Insane Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of three assertions. In Lunatic Asylums the most melancholy exhibition appears. The Countenance is actually sodden and quite destitute—neither Mirth or Grief ever visits it; should a sound of the voice occur, it is rarely articulate.
