The energy wasted in postponing until to-morrow the duty of to-day, would do the work, and putting off usually means leaving the work undone.—*The Amulet.*

## Leap Year Dance.

Several of the students took advantage of the Leap Year Dance which was held in Bellefonte last Friday evening. The boys report having a very pleasant evening and all join in congratulating the young ladies of Bellefonte upon the success of the affair. Among those who attended are: Messrs. Hoffman, Heinrich, Minick, Geib, Heckathorne, Torrence, Harper, Lose, Workman, Armsby, Tawney, Herst, Plank and McIntyre.

## Electricals Dine.

About forty-five Senior and Junior Electricals assembled at Harrison's last Wednesday evening for their regular monthly feed. Incidents connected with the St. Louis trip were related and many were the jokes given among the members. Three papers were read and discussed: "Speaking Over an Electric Arc," by W. Kaiser; "Wireless Telegraphy," by Goodman, and "Rapid Telegraphy," by Fritchey.

## Natural History Club.

At the meeting of the Natural History Club last Wednesday, Prof. Surface addressed the club on "Zoology at St. Louis." The address was very interesting and instructive. He also told how he obtained for the Museum a seal and a diamond-backed turtle, these specimens being very rare, the latter almost extinct.

## Y. M. C. A

The week Nov. 13-19 has been set apart among the Associations throughout the country as the week of Prayer for young men. Each evening during that week the Association will hold a half-hour meeting in room 126 beginning at quarter past six. These meetings will be addressed by Rev. Dr. Gill, Rev. Mr. Denniston, and Rev. Mr. Heckman.

News of the steady increase in the Bible study enrollment over the country continues to come in. Cornell reports 250 men enrolled with classes in twelve of the leading fraternities. The University of Wisconsin has 150 and the University of Illinois reports 450 enrolled. Fourteen fraternities at University of Pennsylvania are represented in the inter-fraternity Bible study committee.

The current Intercollegian contains an interesting article on "Association Work among Colored Young Men." Associations are organized in more than 90 per cent. of the schools and colleges in the south. Among the more than 10,000 young men in attendance 5100 are members of the Association and 1446 are in Association Bible classes. The beneficial influence of this work among the colored students of our land can scarcely be estimated.
