STATE COLLEGE, PA., FEB. 2, 1905.

Price Five Cents.

## Meeting of Board of Trustees.

At a meeting of the Board of Trustees, held at Harrisburg on Tuesday, Jan. 24, regulations for the administration of the various funds at the disposal of the Board, were adopted.

One fund is to be known as "The Andrew Carnegie Beneficiary Loan Fund." All re-payments by students are to be added to the Principal until the same reaches \$100,000 and then in addition to the interest, these re-payments may be used for beneficiary purposes or expended in such other ways affecting the welfare of the whole body of students, as the Board may direct, provided that the principal sum of \$100,000 shall never be impaired or encroached upon.

The selection of beneficiaries, the amount to be awarded, time and conditions of re-payment, and other details are all left with the President of the College or some officer or committee appointed by him. Not more than one hundred dollars is to be awarded for one year to one student and in making awards no distinction of race or creed shall ever be allowed.

Another Fund is designated as "The Louise Carnegie Scholarship Fund." Twelve scholarships for the benefit of students in good standing in a regular four years course are established as follows: Four for members of the Sophomore class at one hundred dollars each; four for members of the Junior class at one hundred dollars each; four for members of the Senior class at one hundred dollars each. The remaining fifty dollars is to be used in the preparation of some

suitable form of permanent certificate designating the donor, the basis on which the scholarships are awarded and the name of the individual recipient. Any surplus over the expense of such certificates shall accumulate until it is sufficient to permit an additional Sophomore scholarship.

Awards are to be made on the three-fold basis of (1) scholarship, (2) conduct while in college and (3) personal quality as giving greater or less promise of an honorable career. In making the awards, no distinction of race or creed shall ever be allowed.

Awards to members of the Sophomore Class are to be made on the basis of the record of the preceding year; to members of the Junior Class on the basis of the record of the two preceding years; to members of the Senior Class on the basis of the record of the three preceding years. In order to assure the requisite standard of Scholarship, only such students shall be eligible to appointment, as rank in the highest or first fourth of their respective classes during the entire time upon the basis of which the scholarships are awarded. The qualifications of conduct and personal quality shall be carefully considered by the Faculty in the selections of appointees from among those of the rank specified.

The third fund is "The Trustees Beneficiary Loan Fund." This is at present a small fund amounting to a few hundred dollars, made up of loans and allowances to students. It is to be hereafter administered as nearly as may be in the same manner as "The Andrew Carnegie Scholarship Fund" except that until further ordered by the Board of

Trustees the principal as well as the interest may be used in whole or in part.

The fourth is known as "The Trustees' Scholarship Fund." Ten Freshman Scholarships are to be awarded in three parts each year as a concession of room rent and incidentals. The Scholarships are to be awarded to the ten students making the highest general average in examinations for admission to the Freshman Class, including in such exams, those held locally in different parts of the State as well as those held at the College; and with permission to any student entering on certificate to compete in such exams, if he shall so desire.

The value of these scholarships at the present rate of charges is \$85 a year each.

## Japan and Russia.

Prof. Eijiro Takasugi, PL. D., graduate of Boston University and late Professor of English Literature in the imperial College at Sapporo, Japan, will lecture in the College Chapel, Monday evening, Feb. 13th, on the present Russia-Japan war.

Dr. Takasugi comes highly recommended as a lecturer. He speaks English fluently and is thoroughly familiar with the prominent figures in the great war of the East. His lecture, in general, is a discussion from the view point of a Japanese scholar of the civilization of the two great races now in conflict; the characteristics of the two peoples, their governments and religions together with the causes of the present war. The lecture is illustrated with many beautiful lantern slides of Japanese manners, customs, war scenes, etc.

This lecture will be in charge of the Y. M. C. A., the proceeds to go to the Association Missionary fund. Admission 25 and 35 cents. Chart at Meek's.
