## Republican State Nominations.

FOR GOVERNOR.  
DAVID WILMOT, of Bradford.

FOR CANAL COMMISSIONER.  
WILLIAM MILLWARD, of Philadelphia.

FOR JUDGES OF THE SUPREME COURT.  
JAMES YEECH, of Fayette.  
JOSEPH J. LEWIS, of Chester.

## Republican County Nominations.

For Assembly, ISAAC BENSON.  
For Prothonotary, HENRY J. OLMSTED.

For Register and Recorder, A. H. BUTTERWORTH.  
For Commissioner, L. H. KINNEY.

For Auditor, JOHN C. BISHOP.

Harper's Magazine, for September is on our table already, and is particularly interesting to Pennsylvanians—the second article, it being a long one on "The Coal Mines of Pennsylvania." This is, altogether, an exceedingly good number.

Gov. ROBINSON, who was arraigned before the Border Ruffian Court of Kansas on a charge of Treason, was acquitted last week. The jury acquitted him because they feared that by convicting him they would recognize the Topeka Constitution.

We would call the particular attention of our readers to the "Political Antiquities" which are developed on our first page. The first article under that head was doubtless written by some one of the most prominent political characters of that day, and of which, at that time, the old "Bay State" was prolific. But written by whom it may have been, it certainly presents a series of strong arguments for the principles entertained by the Republican party of the present day. But what we would most particularly invite our readers to observe is the fact that Massachusetts then cast her electoral vote for a Democratic President, Mr. Jefferson—a fact which, when compared with her present political character, is certainly a conclusive argument against the presumption of the so-called Democracy of the present day, in claiming to represent the principles of that worthy man in their current policy. We have no room to notice more particularly the article, and invite our readers to peruse it and draw their own conclusions.

## The County Ticket.

Under the head of "Town and County" will be found the authorized Proceedings of the Republican County Convention. A more harmonious Convention has not met in this county before, and not a single action of that body was marred by any want of union or propriety in the members—everything being conducted by fair balloting.

In its proper place we present the Ticket placed in nomination, and for want of room to notice it more extensively, we will briefly notice the claims of each candidate.

ISAAC BENSON, Esq., was unanimously re-nominated for Representative, which action of the Convention precludes the necessity of any further remarks from us; and we have no doubt that the People of Potter and Tioga counties will give an equally hearty approval of his course last winter, when election day comes around.

H. J. OLMSTED, the nominee for Prothonotary, and present incumbent by appointment, is well known to the voters of the County, and will be heartily endorsed by them at the polls.

A. H. BUTTERWORTH, the nominee for Register and Recorder, is a new character in the arena of candidates, but is personally well known throughout the county, and will be elected by a handsome party majority. He will make a good and faithful officer.

L. H. KINNEY, the nominee for County Commissioner, is a deserving candidate, and will make an efficient and honest officer. He is well known throughout the county, as a live Republican, deserving of an enthusiastic support.

With JOHN C. BISHOP, the nominee for Auditor, we have not much personal acquaintance, and we believe this is his first appearance on the political race-course of this county. Those who do know him, assure us that he is every way worthy of the support of the party, and we heartily commend him to the good will of the Freeman of the County.

With the above brief notice of the Candidates separately, we for the present leave the subject, in the meantime enjoying upon all honest voters, who value the welfare of the county, to give it a cor-

dial support, and let each and every Republican regard it as his duty to labor for an increase of the majority given to our ticket last fall.

ASSEMBLY.—Gen. D. K. JACKMAN, of Clinton, and Col. Thomas W. Loyd, of Lycoming, are the Democratic nominees for Assembly, in this district. Now that we are happily rid of the pestilential county of Potter, the election of our Representatives may be looked upon as a foregone conclusion.—*Clinton Democrat.*

We do not wonder at the above expression of Dieffenbach's feeling towards "pestilential Potter." You are happily rid of her, Dieff., and we are sorry you did not permit your name to go before the convention of your district—you might possibly have been elected in a thoroughly black Democracy district, notwithstanding you ran behind your ticket there last fall. Perhaps you feared that you might run further behind this time, and therefore came to the conclusion not to run at all, considering that "discretion is the better part of valor."

## More Honest Avowals.

The *Pennsylvanian* denies authoritatively and emphatically that "the course of the Federal Administration is directed towards the admission of Kansas as a Free State," and adds that it is "glad to see that its neighbor, the *Times*, don't believe in any such nonsense."—*Es.*

The *Pennsylvanian* knows, which side of its bread is buttered—it knows well that the strength of its party is all in the South, and that unless it heartily supports southern measures, the party will soon cease to exist anywhere. The honest voters of Pennsylvania will show the Democratic party, south and north, "trick with a hole in it," at the October election. We wonder if the small-fry organs in this section of the state won't deliver their opinions soon, to accord with the *Washington Star* and the *Pennsylvanian*.

## "He Wins, Who Works."

Brother Cobb, of the *Wellsboro Agitator*, always writes some good things for his paper, but his article last week on "the price of Liberty" is capital, and needs to be read by the Republicans of this county. Here is an extract from it, which we commend to the serious attention of every friend of Freedom:

"Does any freeman lean upon any past success achieved by the noble efforts of the friends of Liberty? If so, does he dream that the successes of the past, however brilliant and how signal soever they may have been, can guarantee like gloriously signal and brilliant victories to-day, or to-morrow? Such a man leans on a rotten stick. Success yesterday is not a guaranty of success to-day. There is no victory without labor, no true defeat without apathy on the part of the defeated. He wins who works, he works who wins. He works best who is ever alive to the importance of action: and he is a drone who leans on past endeavor. A thousand such could not do the work of one truly vigilant freeman; and ten thousand such would lose the best Northern State to Freedom. It is the crying evil of the time in Pennsylvania, that the Republican hive is cursed with drones—men who lean on local successes and do nothing. The South and center Counties look up to the Northern tier and gloat over our monster majorities, forgetting their duty. The Wilmot District hugs its majority for Fremont and cries—"

"Oh, if the lover part of the State would but do something handsome!" Now this is all bosh—bosh without a whit of its crudity purged off—unmitigated, political lovesick fiddle-faddle.

The lower part of the State has no right to lean upon our majorities. Mind your own business, and mind your own feet. Go to work and redeem the lower part of the State—the upper part of the State will get along without your laudations. The Wilmot District need not wait for the lower counties to do "something handsome." We have something handsome to do ourselves. We must not expend all our strength in hugging that Fremont majority; we must go to work and do 500 better. That is what we have to do here in the Banner County. We do not thank any croakers to put on a Sunday-go-to-meeting face and say that Tioga can't do better than she did last fall. She can do better. The votes are all here, and if they do not get into the ballot-box on the 13th of October next, then the Republicans of the several election districts must settle with their own consciences. There is no escaping the conclusion that if voters fail to come out, their Republican neighbors will have neglected their duty."

Just the Season.—If health follows the administration of a remedy for disease, almost without exception, though it is prescribed in a million of instances, and in all forms of disease, all the doctors on the globe could not make the people believe that it was not a good remedy, or that the inventor was not a public benefactor. Hurley's Sarsaparilla is expressly designed to act on those organs whose functions are essential to health—the stomach, liver, lungs, kidneys and skins, restoring their deranged functions or uses, and thereby purifying and cleansing the blood—the very fountain of life.

## Statement of a Kansas Victim.

[We publish the following experience of a Free State man among the Border Ruffians, by request of the person to whom it is addressed, who has recently returned from Kansas to this county, to prepare for a permanent settlement in that Territory. This adds to the extracts from Dr. Gihon's book, we think should convince every honest mind that the intelligence from Kansas during last year's campaign, was not all got up for political effect against Mr. Buchanan in the North—but that it was got up for political effect in his favor at the South. *Ed. JOURNAL.*]

Facts in Relation to my Capture and Imprisonment among the Pro-Slavery Men last Summer.

COUNCIL CITY, July 7, 1857.

I started from this place, (Council City) in the employ of Mr. H. L. Jones, for Leavenworth City after a load of provision, about the middle of August, 1856—just before the troubles broke out.

The excitement was such after I got to Leavenworth, that I deemed it prudent to stop a few days, and consequently did not start out till the 25th. I had not proceeded but about 8 miles before I was overtaken by three horsemen, who asked their guns and ordered me to stop. They searched my load, and then told me I must go back to camp with them, as they had received orders not to let any one pass on the road. I was kept in Capt. Emory's camp, closely guarded, two days and two nights, then he (Capt. Emory) delivered me over to Capt. Miller, who marched me some twenty miles, when overtaking Col. Clarkson, a council was held and I was discharged, not to go home, but sent back to Leavenworth City where I staid till all the Free State men were ordered off, when I fled to the Fort (Fort Leavenworth). With Capt. Emory, I was well fed, but with Miller, we did not fare so well, as it was with considerable difficulty that he could get his men to give us any food at all.

Capt. Emory has been rewarded for his gallant service in robbing and murdering men, (I helped lay out one of his victims, Wm. Phillips) by a lucrative position in the Land Office. Capt. Miller is a notorious gambler of Leavenworth City, and Col. Clarkson is a merchant of Leavenworth City. Capt. Emory was holding, at this time, a mail contract from Government.

My horses and wagon with my load, amounting in all to about \$500 was taken and appropriated to their own use.

Yours Respectfully,  
HARRISON PRESTON.

To Jno. L. ROOKS, Esq.

## KEEP IT BEFORE THE PEOPLE.

That HENRY S. MOTT, Canal Commissioner, CHARLES R. BUCKALEW, Chairman of the Democratic State Central Committee, and others of the same ilk, plundered the Treasury of \$3000!

## KEEP IT BEFORE THE PEOPLE.

That JACOB FRY, Auditor General, and HENRY S. MAGRAW, State Treasurer, both Democrats, connived at the fraud and paid the money out of the Treasury, in direct violation of law!

## KEEP IT BEFORE THE PEOPLE.

That if they desire to protect the Treasury from plunder, and save themselves from onerous taxation, they must elect honest public officers to guard the treasure of the Commonwealth, and protect it against the leeches who have been sticking it and sucking its life-blood for years past.

## KEEP IT BEFORE THE PEOPLE.

That the leaders of the Democratic party, from PACKER down, are a gang of STATE PLUNDERERS, who have swindled the Commonwealth out of millions of money, wrung from the sweat and toil of honest taxpayers, and will continue their depredations upon the Treasury so long as they are placed in high position and entrusted with power!—*Harrisburg Telegraph.*

## THE WORLD'S FAIR OF ALL NATIONS.

—Among the noticeable things on exhibition at the crystal Palace, we saw the contribution of *New Pills*, from the Laboratory of Dr. J. C. AYER, the author of the widely known and valued Cherry Pectoral. As it is against the express regulations of the Palace to admit any quack medicines, this fact shows that his remedies are not placed in that category by the authorities. Indeed we have before known that his Pectoral was highly appreciated by scientific men, and have seen lately that his Pills are held in great estimation by those deeply learned in the healing art.—*True Reformer, Mass.*

## COL. BONNERVILLE, of the Army,

Commander of the Gila expedition, writes to the War Department, from his encampment on the Rio Gila, June, as follows: "The expedition is developing one of the most beautiful, fertile, and healthy regions of our country, in all places finding evidence of a former numerous people, more civilized, more industrious, and no doubt more docile than the wandering Apache who now desolates it. In some localities are found irrigating canals, cut ten feet wide into the sides of the mountains, conveying water miles to irrigate valleys of the richest character, some of which are able to contain twenty thousand inhabitants."

The Surrogate has decided against Mrs. Cunningham's claim to the Burdell Estate.

oppose the encroachments of the Slave Power upon the rights of Freeman, and upon territory consecrated to Freedom. In all contests he has been fully equal to the emergency, and proved himself one of the most reliable as well as one of the ablest champions of Republican principles.

Resolved, That the refusal of Gen. Packard to meet the Hon. David Wilmot on the stump, and canvass the questions at issue before the People, shows conclusively that he is afraid to have the truth told and trust his cause upon its own merits; and his attempt to shuffle the responsibility of the refusal upon the Committee, is a pitiable dodge that makes it more contemptible.

Resolved, That in the opinion of this Convention, the doctrines promulgated by the Supreme Court in the "Dred Scott case" are departures from the time honored traditions of the framers of the Constitution and the Fathers of the Republic, and that we deem them dangerous to our Free Institutions and in opposition to the decisions of all the Courts, both of Free and Slave States, since the organization of our government.

Resolved, That the course pursued by our National Administration in reference to Kansas, is the most forcible commentary that could be made upon the professions of the friends of Buchanan in the last campaign.

Resolved, That the Administration of the present State Executive challenges our respect, for its purity, ability, and earnest devotion to the interests of the Commonwealth.

Resolved, That the Candidates this day nominated are every way worthy of the confidence of the People, and we pledge them our earnest support.

The Coudersport Academy opened its Fall Term a week ago last Monday, with 45 students, and more have since come in, making about 62 scholars in all thus far; and we learn that more are expected.

This augurs well for the popularity of the School under Mr. Hendrick's preceptorship.

We are also pleased to learn that Mr. Hendrick has secured the services of Miss ANNA LEWIS, as an assistant, and who will teach French, and give instructions in Oil Painting.

### PARTIAL DEAFNESS AND DISCHARGES FROM THE EAR.

DR. HARTLEY begs to announce to those of his patients with whom he has been in communication, that he has, in compliance with their special requests, made arrangements to establish his Ear Institution in New York; and he generously offers to attend all persons suffering from affections of the Ear, without charge, until cured—thereby proving his success unequalled, and protecting the deaf from being swindled, by paying self-styled Aurists exorbitant fees in advance, and the infliction of still more serious evils, by permitting the application of dangerous remedies by inexperienced and unskillful hands.

Dr. H. may here state that he has no connection whatever with any person advertising to cure deafness; neither has he given permission for the publication of a certificate, purporting to emanate from him; and can therefore, be responsible for any alarming consequences resulting from rashness and desperation. The loss of money may not be material to some persons, but the deprivation of one of the most important of the senses, ought to be regarded and treated with more than ordinary solicitude.

Deafness, noise in the head, and all disagreeable discharges from the Ear, speedily and permanently removed, without causing the least pain or inconvenience. A cure in all cases guaranteed, where malformation does not exist.

Thirteen years' close and almost undivided attention to this branch of special practice, has enabled him to reduce his treatment to such a degree of success as to find the most confirmed and obstinate cases yield by a steady attention to the means prescribed.

The destruction, by fire, of the Philadelphia Ear Infirmary—of which Dr. HARTLEY was the head—having released him from his duties in that city, he has established permanently his Institution, for the exclusive treatment of Ear Diseases, at 760 Broadway, New York.

Consultation and Examination each morning.

On Saturday, the 22d inst., Mr. John Roberts of this town caught in a trap and killed a bear of uncommon size. The most experienced hunters thought he would weigh six hundred, if in a good condition, but unfortunately he was poor and of little value. He seemed to have been an old soldier, as some lead was found in his body, having apparently been deposited there some years ago. He was not easily conquered, making a mere jest of three good dogs, while a smart trap and clog were hanging to one fore paw. He was an old garmandizer, having with his accomplices selected and destroyed five of Mr. Robert's best sheep, and was in hot pursuit of more. He was greatly opposed to "agitation."
